*Bonus includes extra set of filters and small calibration kit.

Popular Configuration / Common Competitive Configuration

Note: 523-01-28 = FX050 and 523-01-29 = FB100; only product labelling is different.

Note: Panels listed with 0 outlets may be hard piped, or outlets may be attached using the following parts:

8005401 4 outlet block (up to 10-100 CFM)
8005402 2 of 8005401 in series (for panels > 100 CFM)
80022 Quick Connects (allows direct connection of W-9435 and W-3020 series airlines)
S685-003 Hex-Plug (used to plug the outlets that do not have a Quick Disconnect installed.)

⚠ WARNING

These respirators help reduce exposure to certain airborne contaminants. Positive pressure respirators are to be used only by qualified persons who are properly trained in their use and maintenance. Use only in accordance with operating and maintenance manuals and the requirements of the authority having jurisdiction in your area. Use of 3M™ Positive Pressure Respirators by untrained or unqualified persons may adversely affect product performance and result in sickness or death. For proper use, each person must first read and understand the operator's manual. For assistance call the 3M Canada Technical Service Centre at 1-800-267-4414.
