GREASE GUN HOSES

- Replacement whip hoses
- Polymide inner tube with polyurethane outer tube, reinforced with highly tear resistant polyester

High Pressure - Regular Style

- Heavy duty high pressure (11,600 PSI burst pressure)
- Working pressure 3,500 PSI

PROD. NO.	MOD. NO.	Length	Type	Thread
350181	JFH-12	**12"**	Flexible	1/8" NPT
350182	JFH-18	**18"**	Flexible	1/8" NPT

Regular

High Pressure - Spring Style

- Fitted with heavy duty spring for added safety, strength and life
- Heavy duty high pressure (11,600 PSI burst pressure)
- Working pressure 3,500 PSI

PROD. NO.	MOD. NO.	Length	Type	Thread
350201	JFH-12SP	**12"**	Flexible	1/8" NPT
350202	JFH-18SP	**18"**	Flexible	1/8" NPT

Spring Style

High Pressure - Super Heavy Duty

- Two layer construction consisting of polyamide inner tube with a tough polyurethane sheath, reinforced diagonally with hight tear resistant polyester
- Extra large inner diameter is ideal for cold weather use
- Spring guard adds strength and safety
- For hand and air operated grease guns and control valves
- Working pressure 5,800 PSI
- Burst pressure 13,775 PSI

PROD. NO.	MOD. NO.	Length	Type	Thread
350215	JFH-12HP	**12"**	Flexible	1/8" NPT
350216	JFH-18HP	**18"**	Flexible	1/8" NPT

Super Heavy Duty
