Kevlar®-lined Waterstop/Oilbloc™ Goat-grain Drivers Glove

Oilbloc™ treatment

#378GOBTKL

Kevlar® Lined

Supple goat-grain drivers gloves are processed with Superior's own Oilbloc™ treatment for exceptional water and oil repellency. Oil simply won't soak through, not hours—or even days—after being dropped onto leather. (Untreated leather absorbs oils and liquids within seconds of contact.) And because it can't penetrate and leave a mark, gloves are highly stain resistant, and without picking up contamination, provide greater safety. They are also tough and long lasting: goatskin is prized for its high tensile-strength and abrasion-resistant properties, and is often referred to as nature's strongest leather.

Arc-flash testing placed these gloves at level 2, with a rating of ATPV = 21 cal/cm².

**Note:** these gloves are designed for spark and flame resistance, not thermal contact.

This winter style is lined with 100 gram Thinsulate™ for warmth without any added bulk. The seamless-knit, cut-resistant Kevlar® liner offers ASTM level-2 cut protection. Elasticized backs provide a snug fit, allowing gloves to slip on and off easily.

DuPont™ **Kevlar**® is a registered trademark of E.I. du Pont de Nemours and Company.

825 grams of cut protection.

### FEATURES

- Goat-grain leather is treated with Oilbloc™ for unbeatable oil resistance
- Goatskin is exceptionally tough and abrasion resistant with a high strength-to-weight ratio
- Seamless-knit, cut-resistant Kevlar® lining for ASTM level 2 cut protection
- Driver style slips on easily and has elastic backs for snug fit
- Level 2 arc-flash resistant according to ASTM F1959-2006 (with a modified panel for holding gloves)
- Winter version features 100-gram Thinsulate™ lining for excellent warmth without the bulk

### APPLICATIONS

Automotive  
Steel Mills  
Metal Stamping  
Material Handling  
Maintenance  
Petroleum industry  
Manufacturing

Industrial  
Construction  
Forklift, Truck Drivers  
Farm Equipment  
Mining  
Utilities

### AVAILABLE SIZES
