

#S13PU

Superior Touch®

13-Gauge Nylon Gloves with White
PU Palm

#S13PU

Superior Touch® fine-gauge nylon gloves offer excellent comfort and touch sensitivity, while polyurethane palm coating provides an excellent grip. But what makes these gloves really great is the non-linting filament nylon used in the seamless knit shell, and the low-particulate shed of the polyurethane palm coating. Gloves are excellent for use in any fine assembly work where contamination is an issue, and protect hands from nicks and minor cuts, while allowing for a bare-hand feel during tasks where it is essential. DMF free.
