

Comfo Classic® and Comfo Elite® Respirators

The **Comfo Classic Respirator** features SoftFeel® facepiece material, which is an MSA-exclusive formulation that improves pliability and softness. Like earlier Comfo respirator models, the Comfo Classic Respirator features a unique face seal design that gives wearers an exceptional fit.

The **Comfo Elite Respirator** provides protection against a variety of respiratory hazards. The Comfo Elite Respirator, available in black silicone, has a unique sealing surface designed to reduce facepiece slippage. The Comfo Elite Respirator comes in small, medium, and large sizes. NIOSH-certified.

Ultra Elite® Twin-Cartridge Respirators

The demand version of the **Ultra Elite Facepiece** from MSA can be used as a twin-cartridge air-purifying respirator for full-face respiratory protection. The unique lens design provides a high level of peripheral and downward vision. It is available in three sizes and has large adjustment tabs for easy donning and doffing. Choose one of two facepiece materials—SoftFeel® Hycar rubber or silicone—to enhance wearer comfort. A speaking diaphragm in front of the wearer's mouth improves communication so that speech is not blocked. A nose cup reduces lens fogging in low temperatures or high-humidity conditions.

†See page 14 for threaded Comfo filters and cartridges.

Ultra Elite Facepiece				
With Twin-Cartridge Adapter				
Material	Color	Small	Medium	Large
SoftFeel silicone	Black	10016755	10016756	10016757
Less Twin-Cartridge Adapter

Ultra-Twin® Respirators

The **Ultra-Twin Full-Facepiece Respirator** has an inturred lip around the edge for a secure, comfortable seal against the face. A large chin cup makes it easy to position. Five suspension headstraps and roller buckles hold the facepiece in place while minimizing hair entanglement. The wide polycarbonate lens is coated to resist scratching and chemical attack. The lens is held in place by a two-piece lens ring which is color-coded to indicate the size of the facepiece. Uses the full line of Comfo Cartridges and Filters.†

Standard equipment includes a speaking diaphragm for clear, short-range communications and a nose cup, to reduce lens fogging in low temperatures or high-humidity conditions.
