

SSF Series Face Plates

Hubbell Premise Wiring

Hubbell Premise Wiring's Stainless Steel faceplates provides a rugged structure capable of supporting numerous multimedia configurations.

Stainless Steel Faceplates - SSF, are designed for flush mount applications, accepting Hubbell's extensive line of HD Series jacks and SF Series connector fittings. The HD Series jacks and SF Series connector fittings, snap-mount flush into the keystone opening, creating an elegant streamline look, with added connector protection.

This attractive plate can be configured for a multitude of environments such as medical facilities, manufacturing plants, and school systems where reliability, durability, and tamper-resistance is a factor. Our new SSF series faceplates have been modeled after Hubbell's FPL series faceplates. They provide many of the same excellent features and benefits while supplying standardization within these two lines.

See reverse side for other metal plate options.

FEATURES

- Accepts all HD jacks and SF connector fittings
- Designed to accept UTP, Coax, and Fiber connectors
- Installation durability
- Rear flush-mounting improves tamper resistance
- Housing can be used as a termination tool
- Brushed stainless steel
- Stainless steel

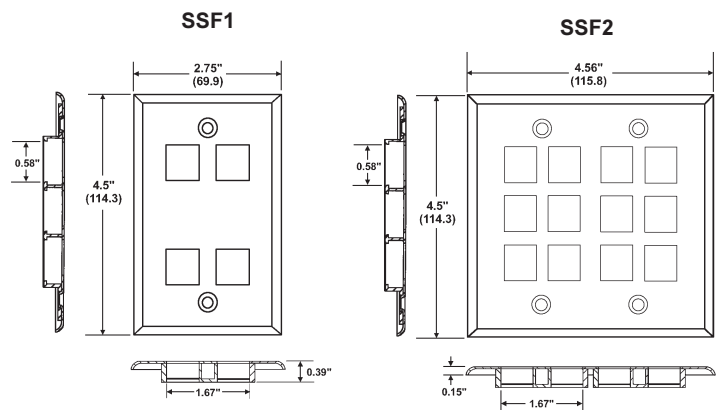

BENEFITS

- Flexibility/versatility of termination options
- Provides various standard multimedia configurations
- Multiple environmental uses
- Excellent in high population/traffic areas (schools)
- Cost-effective, time-savings
- Aesthetic profile, low-maintenance
- Rugged, safe, long service life

SPECIFICATIONS

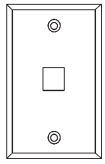

- Type 430 stainless steel
- Brushed stainless steel finish
- Rear housing of Noryl
- 3/4" stainless steel mounting screws supplied
- Standardized to fit all single- and double-gang electrical boxes
- Dimensions:
 - SSF1: 2.75"W x 4.5"H (6.9mm x 114.3mm)
 - SSF2: 4.5"W x 4.5"H (114.3mm x 114.3mm)
