Personal Lockout Kits

Personal lockout kits come equipped with keyed-alike padlocks, allowing all the locks in a kit to be opened with a single key. This simplifies key management and ensures that employees can quickly and easily find the right key. For kits containing padlocks that are keyed different (each padlock has its own unique key), see the standard lockout kits on the following pages. Or select a personal lockout kit without padlocks, and purchase the padlocks separately (see page 192-195 for padlocks sold separately.)
