E-WELD 4

PREMIUM ANTI-SPATTER

ANTI-SPATTER

DISCOVER THE NEWEST MEMBER IN OUR PREMIUM E-WELD ANTI-SPATTER FAMILY!

The only product in the market that will quickly recede from the presence of heat, leaving the welding area void of liquid for unprecedented weld quality!

Try it and watch it to believe it!

The only anti-spatter on the market which will help you perform porosity-free, crack-free welds!

E-WELD 4 is a state of the art anti-spatter which protects work pieces from adherence of spatter.

Thanks to the addition of special and natural ingredients, **E-WELD 4** retracts in the presence of heat, leaving the welding area clean of liquid. This prevents anti-spatter liquid from chemically interacting with the metal during welding, preventing impurities and porosity from forming in the weld.

With **E-WELD 4**, achieve top-quality “clean” welds and increase tremendously the quality and productivity of your work!

BENEFITS

- Prevents weld porosity
- No weld cracking
- Corrosion resistant
- Allows immediate painting
- Non WHMIS controlled

FEATURES

- VOC-free, solvent-free and silicone-free, biodegradable
- Formulation based on natural plant extracts
- Pleasant citrus scent
- Large 208 L format for even greater cost savings!
- Effective amperage range: 100 – 225 A

VALUE-ADDED

- Create a healthier and safer work environment
- Reduce your chemical waste stream
- Lower your operating costs

Description	Size		Order No.	MSDS	Std. Pkg.

E-WELD FAMILY**

E-WELD 3 formerly (Spatter Block HT)

High Performance, High Temperature Anti-Spatter

E-WELD 3 is a high performance anti-spatter especially designed for high temperature applications such as welding stainless steel. It will protect work pieces from adherence of spatter even at very high temperatures. Its high durability will also enable you to do multi-pass welding.

BENEFITS

- Cleans and degreases weld area
- Allows multi pass welding
- Allows immediate painting
- Economical! Only requires a thin protective film to prevent spatter adhesion.

FEATURES

- VOC-free, solvent-free and silicone-free, biodegradable
- Odourless
- Effective amperage range: 100 – 400 A

E-WELD formerly (Spatter Block)

All-Purpose Anti-Spatter

E-WELD is an effective anti-spatter emulsion. It protects work pieces, welding equipment and eliminates time-consuming spatter removal work.

BENEFITS

- Corrosion resistant
- Allows immediate painting

FEATURES

- VOC-free, solvent-free and silicone-free, biodegradable
- Formulation based on natural plant extracts
- Odourless
- Effective amperage range: 100 – 225 A

Description	Size		Order No.	MSDS	Std. Pkg.

Colour: Milky green

E-WELD GEL formerly (Spatter Block GEL)

Anti-Spatter Gel

Superior anti-spatter gel for protecting welding gun nozzles and contact tips.

BENEFITS

- Extends welding torch life
- Fast, easier cleaning of nozzles and contact tips
- Free of chlorinated compounds and silicone

FEATURES

- Protection of the inside and outside of welding nozzles and contact tips
- Odourless

*New magnetized packaging available in Spring 2011!
Metal tin now "sticks" to steel work tables and other vertical surfaces making it easier to work with E-WELD GEL.*
