

SIRIUS 3RV2 Motor Starter Protectors/Circuit Breakers up to 40 A

Motor Starter Protectors

For motor protection

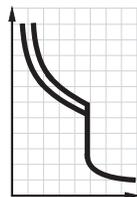

Selection and ordering data

CLASS 10, without auxiliary switches¹⁾

The **3RV20 1 & 3RV20 2 MSP's** can be used as components in Group Installation per NEC 430-53(C) to turn motors on and off. Each device has built-in heater elements that provide overload protection and magnetic trip elements to protect the motor.

When the 3RV2 is used as a component in Group Installation, multiple MSP's can be installed below one circuit breaker to protect its own motor. A contactor can be mounted to the MSP to provide a remotely operated starter.

The **3RV20** can also be used as Type E self-protected manual combination starters per UL 508 with the use of an additional type E terminal adapter. See [page 5/21](#) and [5/29](#).

¹⁾ The 3RV20 .1-...A.0 motor starter protectors up to 32 A are also available with ring lug terminal connection. The Order No. must be changed in the 11th position to "4": e. g. 3RV20 11-0AA40.

²⁾ Guide value for 4-pole standard motors at AC 60 Hz 460 V. Select MSP by motor full load amps. Horsepower ratings for reference only.

Auxiliary switches can be ordered separately (see "Mountable accessories").

SIRIUS 3RV2 Motor Starter Protectors/Circuit Breakers up to 40 A

Motor Starter Protectors

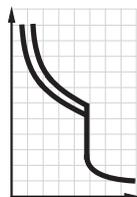

For motor protection

CLASS 10, with transverse auxiliary switch (1 NO + 1 NC)

The **3RV20 1** & **3RV20 2** MSP's can be used as components in Group Installation per NEC 430-53(C) to turn motors on and off. Each device has built-in heater elements that provide overload protection and magnetic trip elements to protect the motor.

When the 3RV2 is used as a component in Group Installation, multiple MSP's can be installed below one circuit breaker to protect its own motor. A contactor can be mounted to the MSP to provide a remotely operated starter.

The **3RV20** can also be used as Type E self-protected manual combination starters per UL 508 with the use of an additional type E terminal adapter. See page 5/21 and 5/29.
