Additional contact block arrangements are available upon request. See contact block table on page 32 for a complete list of contact block offerings.

Use the selection information below to build your push-to-test unit catalog number. Please contact your Siemens account manager for further ordering details.

¹ Lighting module accessory kits can be ordered on page 31. When using LED, lens and LED bulb must match.

² This option cannot be selected when using 12-13V Full Voltage or LED Module. All LED Modules utilize a single LED bulb. When selecting this in combination with 120V Full Voltage, only AC voltage can be used.
