## 70 Series - Telephone Accessories

### 70-650 DSL SINGLE LINE MICRO FILTER

Provides uninterrupted DSL service and crystal clear conversations. Sharing a DSL connection with analog telephones may cause interference. 2 Wire DSL filters eliminate all interference between DSL line and analog telephone lines. The result is clear, clean lines for your telephones, fax machines, answering machines, caller ID and analog modems. All 2 Wire DSL filters also ensure that telephones never cause the DSL modem to adjust to the changing conditions of your DSL connection (Called retraining), which could hinder your internet access speeds. FCC approved. Male to Female RJ11. Overall length of 7". Color is off-white.

### 70-651 DSL LINE SPLITTER WITH SURGE PROTECTION AND DUAL MICRO FILTERS

Device splits the line to a DSL modem connectin and a analog telephone connection. Separate RJ11 female line, telephone and modem jacks. Comes with 2 mounting screws. Size: 3"L x 2.4"W x 1.09"H. Color is off-white.

### 70-512 INDOOR/ OUTDOOR EXTENSION TELEPHONE RINGER

An alternate to a second phone, weatherproof ABS plastic casing. Built-in modular jack for easy installation. Loud mechanical ring. Color: Ivory.

### 70-513 TELEPHONE LINE AND HANDSET TESTER

For testing line continuity and handset operation. Uses 9V battery (not included). Color :White.

### 80-566 MINIATURE TELEPHONE PICK-UP COIL

Suction cup type, attaches to phone permitting both ends of a telephone conversation to be recorded with no wiring necessary. Has 3.5mm miniature plug.

### 70-392 "JELLYBEAN"-STYLE TELEPHONE & ALARM INTERCONNECTS

Also known as maggots, Chiclets, beans, B-wire connectors. By using wire penetrating teeth you don't have to strip off the insulation, making it easy to splice together several wires. High-impact polycarbonate housing with thick .355mm phosphor bronze contacts. For use with 22-26 awg. wires.

- 70-392-25..... 25 Pcs.
- 70-392-100.....100 Pcs.
- 70-392-1000.....1000 Pcs.

### 70-392J "JELLYBEAN"-STYLE TELEPHONE & ALARM INTERCONNECTS

Gel filled type jellybean connectors also known as maggots, Chiclets, beans, B-wire connectors. By using wire penetrating teeth you don't have to strip off the insulation, making it easy to splice together several wires. High-impact polycarbonate housing with thick .355mm phosphor bronze contacts. For use with 22-26 awg. wires.
