

Portable Breathing Air Systems

Rescue Pak and Handy Pak

The Handy Pak or Rescue Pak is ideal for use in confined spaces, haz mat response, tank entry and cleaning, sewer maintenance and chemical handling operations among other applications. Each serves as a primary air source by utilizing SCBA cylinders for breathing air, or when combined with an external high-pressure air source (e.g., compressor), the cylinders provide air for emergency escape. Either system is easily carried or wheeled to a remote/rescue site or where accessibility is restricted.

Any SCBA type cylinder can be used with either system. Each unit has a standard CGA 347 fitting that permits the use of either low or high pressure cylinders (up to 4500 psi). A directional valve on the Rescue Pak allows only one cylinder to be used during the operation, whereas the Handy Pak allows for single cylinder or simultaneous cylinder usage or functions. This allows the user to determine which application would best fit the estimated duration of work activity .

Each system features an adjustable regulator, dual pressure gauges, 4 quick connect outlets with dust caps and a low pressure alarm whistle. The Rescue Pak offers a 5th connection and dedicated regulator to provide air for a respirator or pneumatic tools.

The Rescue Pak is designed for portability with 8 inch ball bearing wheels, a telescopic handle and storage rack for 50 feet of airline hose making it extremely compact and lightweight.

Handy Pak

Rescue Pak

Technical Data

Data	HandyPak	Rescue Pak
Weight (without cylinders)	26 pounds (11.8 kg)	56 pounds (25.5 kg)
Dimensions (LxWxD) (metric mm)	29.5" x 21" x 6.5" 750 x 530 x 165	37"x27"x14.5" 940 x 690 x 370
Frame Material	Powder coated lightweight aluminum	
Regulator	0 - 5000 psi incoming, 0 - 125 psi outgoing	
Socket	Hansen Brass (other couplings available)	
Relief Valve	125 psi ASME preset	
Warning Alarm	Pneumatic whistle set at approximately 500 psi	
Flow Rate:	80 cfm (2260 lpm) @ 120 psi	
Rescue Pak's 5th connection		
Flow Rate:	20 cfm (560 lpm) @ 120 psi	

Order Information

Handy Pak	4053879
Rescue Pak	4053977
Aluminum Cover (for Rescue Pak)	4055257
Aluminum 2216 psi 30 minute Cylinder (short duration)	4054856
Carbon 4500 psi 60 minute Cylinder (long duration)	4055699

DrägerService
DrägerService offers regular inspections and training. We do everything to ensure your equipment will be repaired and back in operation as quickly as possible. DrägerService facilitates the vital flow of information between client and manufacturer.

Dräger Expertise
Since 1889, Dräger continues its outstanding reputation in technology for human breathing. Dräger has always been at the forefront in particular hazard protection and the saving of lives in medical and industrial emergencies. Many of the company's 8,500 employees are active in research and innovation to ensure that the latest techniques and scientific advances are fully tested before their inclusion in new equipment.

Dräger Worldwide
The Dräger sales and service organization is spread throughout the world. It comprises more than 25 subsidiaries and associated companies to ensure that Dräger is always within easy reach of its clients and in close contact with all important markets. Dräger's ever increasing market share demonstrates the company's international competitiveness and strength.

Dräger has subsidiaries in the following countries: Australia, Austria, Belgium, Bulgaria, Canada, China, Croatia, Czech Republic, Denmark, France, Great Britain, Hungary, Indonesia, Italy, Japan, the Netherlands, Norway, Romania, Singapore, South Korea, Slovenia, Slovakia, South Africa, Spain, Sweden, Switzerland, Yugoslavia, USA. Additionally, Dräger is widely represented in Central and South America, Africa, the Middle East, the Far East and Eastern Europe.
