

# ETTORE® BACKFLIP®

Two-in-one tool

For the window cleaner who wants an all-in-one tool. The nested handle design allows the tools to work together or independently. No need to change tools when working at heights or with an extension pole.

## BRASS BACKFLIP®

The Backflip ingeniously pairs a t-bar and scrubber with a squeegee to maximize efficiency. For added versatility, the tool can be separated into its two components with the click of a button, allowing the cleaner to use just the scrubber or squeegee as needed. Can be attached to a tapered wood handle or a REA-C-H extension pole for high windows without the need to constantly switch between tools.

brass	38710	38714	38718	6

## ACCESSORIES

Note: For added reach, all these scrapers can be mounted to a tapered wooden handle (2465).

## SUPER SCRAPER™

For the removal of stubborn gunk on windows, floors or other smooth, hard surfaces, the four or six-inch Super Scraper is ideal. Carbon-steel blades are razor edged on one side for use on windows, and dull on the other for scraping floors without damaging the finish.

Super scraper blades	37505 37515	37506 37511	6

## SCRAPEMASTER™

For use on windows only, the four-inch wide Scrapemaster features blades that are razor sharp on both edges for extended life (just undo the screw and flip the blade when the first edge becomes dull).

Scrapemaster blades	37500 37510	6

## CHAMPION SCRAPER™

With a double-edged, Danish steel blade that is five inches wide, the Champion scraper takes on hard-to-remove window deposits with ease. Offset handle design is ideal for use in tight corners.

## ACCESSORIES

Add-ons that make your day

For the professional working at heights, safety is everything. These accessories make tool storage and transport safer and more efficient.

## TOOL BELTS

The single and dual holsters are constructed of form-fitting genuine leather. The nylon double loop allows the user to carry a scrubber and squeegee on a belt. The Sidekick water well acts like a portable bucket to keep your scrubbers charged and wet. All holsters fit on a strong, 44-inch nylon, adjustable tool belt and make your tools fully transportable.
