

ETTORE® PROFESSIONAL

Handles & channels

The Master and Quick Release handles from Ettore are the industry standard by which all other window cleaning tools are judged. The Pivot handle is a next-generation tool: good for getting into tight corners with ease and grace.

ETTORE® PROFESSIONAL

Scrubbers & t-bars

Ettore's popular washers have extra heavy synthetic pile, double stitched seams, and sewn ends. All the scrubbers fit securely on the t-bar using special Velcro® tabs and a slip-on elastic internal collar for a tool in harmony with the elements.

BRASS WINDOW SQUEEGEE HANDLES

Perfectly-balanced, weighty brass handles for frequent or professional use. Available in different configurations to meet the requirements of the job at hand. See table below.

handles	item	pack
Master	36500	12
Quick release	36501	12
Pivot	36550	12

Pre-loaded brass channel with rubber

Pre-loaded stainless steel (SS) channel with rubber

channel/rubber	8 in.	10 in.	12 in.	14 in.	16 in.	18 in.	20 in.	22 in.	pack
Brass channel / rubber	36508	36510	36512	36514	36516	36518	36520	36522	12
rubber only	36608	36610	36612	36614	36616	36618	36620	36622	
SS channel / rubber	-	-	39512	39514	39516	39518	-	-	

accessories	item	pack
brass clips	36600	1 (12 per pack)

Brass clips provide the necessary tension and hold the rubber blade within the channel.

GOLDEN GLOVE™

This durable, heavy-pile synthetic scrubber features double-sewn end seams for long life. Velcro closure allows for easy removal and installation on the straight t-bar (included). An excellent choice for frequent use.

DURASLEEVE™

The Durasleeve scrubber is a favourite among professionals due to its thick, synthetic pile and durability.

PORCUPINE

As its name attests, the Porcupine features spikes of scrubbing bristles mingled with synthetic pile for truly dirty jobs. Caution: Do not use on tinted film windows.

MICROFIBRE

Clean on a microscopic level; let the microfibre do the dirty work. Microfibre picks up five times its weight in water and yet dries fast between uses.

description	10 in.	14 in.	18 in.	22 in.	pack
Golden Glove, complete	36910	36914	36918	-	6
t-bar only	37610	37614	37618	37622	
t-bar pivot	-	37814	37818	37822

Durasleeve refill	-	38014	38018	38022	
Porcupine refill	-	37414	37418	-	
Microfibre refill	40010	40014	40018	40022	

T-BAR

The t-bar channel is grooved to hold and release water as the tool glides across the window. The t-bar pivot model rotates and has aluminum tubes to keep the tool light and manoeuvrable in corners.
