

FINE INDUSTRIAL

Use on smooth indoor floors

These brooms have fine, soft fibres to trap and lock dust particles efficiently when sweeping smooth-finish, indoor floors.

550 SERIES | HAIR FIBRE

These fine fibre push brooms are filled with a blend of synthetic and natural horsehair, a combination that effectively captures and moves fine dust on smooth indoor surfaces.

531 SERIES | HAIR FIBRE BLEND

A soft sweep broom combining horsehair blend with other synthetic fibres for sweeping fine particles on smooth surfaces. The flicking action as the broom sweeps helps move dust efficiently.

53136	36	

581 SERIES | SYNTHETIC

A fine fibre push broom with soft, synthetic fibres. Flagged ends pick up dust with an almost magnetic action, making this broom a good choice for hardwood floors. The fill is moisture, solvent and oil resistant with excellent memory, so bristles will retain their shape over time.

MEDIUM INDUSTRIAL

Use on unfinished floors

These brooms have multiple fibre combinations that offer a greater range on the fibre barometer when sweeping unfinished floor surfaces.

530 SERIES | TAMPICO & SYNTHETIC

Synthetic horsehair encases a medium, natural tampico centre on these brooms. The soft, synthetic outer bristles pick up fine particles, while the extra flicking power of the stiffer tampico centre helps move larger debris for a well-rounded indoor broom.

560 SERIES | SYNTHETIC TAMPICO FIBRE

A combination of synthetic tampico fibres makes this broom a good choice for a warehouse or any facility where both fine dust and larger particles need to be moved.
