

SPONGES

Soft porous mops

The two main categories of sponges are natural cellulose and synthetic. Cellulose sponges offer more scrubbing action. Synthetic sponges release solution quicker and are a good choice on soft surfaces that might scratch such as laminates.

Synthetic sponges clean delicate surfaces with heavy soil (grit) because they flood the surface, suspending the grit within the surfactants and water. This provides protection against scratches.

item	description [in.]	pack
1	cellulose utility, medium	24
2	cellulose utility, giant	24
3	cellulose utility, jumbo	12
4	aqua, medium	24
5	aqua, large	24
8	smoke restoration, 2 x 9.5 x 3	36
12	synthetic hydra, 2 x 6.5 x 4.5	30
13	synthetic hydra, 2.75 x 7.5 x 5	30
474	cellulose scouring, white	40
476	cellulose scouring, green	40
477	polyester scouring, green	40

CHAMOIS & SQUEEGEE

Get to that extra level of shine

Natural and synthetic chamois really help bring out that extra shine and detail on a vehicle.

NATURAL CHAMOIS

100% cod-oil tanned, natural chamois used by professional car detailers everywhere. Note: Dimensions are irregular; expect some variation in total square inches.

item	description	pack
497	210 sq. in.	10
498	240 sq. in.	
500	306 sq. in.	
505	380 sq. in.	

SYNTHETIC CHAMOIS

All-synthetic alternative to natural chamois. These uniform cloths wick up huge amounts of water. Unlike natural chamois, synthetic cloths do not produce lint. They can also be used to pick up spills quickly.

item	description	pack
480	15 x 16 in.	12
485	14 x 20 in.	
490	18 x 20 in.	

VEHICLE SQUEEGEE

Every garage should have several of these economical window squeegees on hand. This two-in-one tool scrubs as well as it squeegees.
