

SCRAPERS & BLADES

Designed to peel, scrape, pick and cut

No maintenance department should be without these tools. From removing gum from under chairs or on floors, to filling nail holes in drywall; a myriad of small jobs are made easier with these traditional tools.

PUTTY KNIVES

Nylon handle will resist the strongest impacts. Riveted, full tang blade offers durability and reliability. High carbon steel provides maximum durability in a flexible or stiff blade.

item	description	pack
202	1 3/16-in. flexible putty knife	
200	1 1/2-in. flexible putty knife	10
201	1 1/2-in. stiff putty knife	

202

200 & 201

1 1/2-INCH RAZOR SCRAPERS

The set-up button features a CLOSE position for safe storage, and a SCRAPE position to secure the blade during scraping. Razor blade change-outs are quick, safe, and economical.

item	description	pack
205	metal razor scraper	20
206	plastic razor scraper	

1 1/2-INCH RAZORS

These razor blades fit the razor scrapers featured above. High-quality carbon steel blades stay sharper longer and feature a safety edge for handling. Each blade is individually packaged with a cardboard safety sleeve.

item	description	pack
211	5 blades x 20	1
210	box of 100	1

METAL SPONGES

Scouring dishes

Not every recipe turns out as planned. Every kitchen needs a supply of these little scouring sponges to clean pots, pans and other metal surfaces.

METAL SPONGES

These metal scouring sponges last longer than steel wool. In addition, these sponges do not disintegrate or rust.

Use the stainless steel sponge on metal surfaces such as pots and pans. Use brass when a softer scrubbing action is required: for example, on enamel-coated racks or implements. Quick, safe cleaning without chemicals makes these metal sponges a hit.

item	description	pack
10050	50g stainless steel, scour sponge	12
10055	50g brass, scour sponge	

DISH MOP & BAR WIPE

At home in the restaurant or bar

The dish mop and bar wipe are the perfect semi-disposable cleaning tools for a busy restaurant or bar.

The dish mop is the perfect tool for getting into glasses to remove dried-on residue before it goes through the bar glass sanitizer. The mop fibres are rayon, which dries quicker than cotton.

Every restaurant needs cotton terry bar wipes. Use the cloth slightly damp as a quick duster.

item	description	pack
900	dish mop	10
120	cotton terry, 15 x 18 in.	120
