3M Job Solutions Work

We believe that health and safety is first and foremost about safeguarding worker welfare. A secure, safe working environment is paramount in any business. But we also believe that improving worker protection, comfort, durability and productivity is a more ambitious goal; one we firmly believe in.

At 3M, we don't take safety for granted. The health and welfare of your workforce depends on it. So, by working in association with skilled safety practitioners, partners and customers, our people are committed to ensuring that we help you create an environment that protects your workforce—effectively, efficiently and economically.

Comfort and safety, right from the start.

For decades, 3M has been an innovator in worker health and safety. In 1972, we introduced the first NIOSH-approved disposable filtering facepiece respirator and launched the first disposable earplug.

40 years and thousands of patents later, 3M now offers an extensive family of Personal Protective Equipment (PPE). In addition to bringing new innovations to the market, we are constantly enhancing products with new technology and materials. 3M has remained at the forefront of worker safety.

Trust your PPE to a company that has the support and services you've needed for decades past and can rely on for years to come.

Better.
Products that help you become more efficient.

Faster.
Solutions that are easy to use.

Now that's **Smarter.**
