Cutting Tips

PowerWeld®
QUALITY WELDING PRODUCTS

PowerWeld®
QUALITY WELDING PRODUCTS

PowerWeld tips are precision machined from high quality copper alloys for durability. The gas passages for single piece acetylene tips are accurately swage-forged and shaped on polished mandrels for smooth, efficient gas flow. Two piece tips alternate fuel gases feature an internal spline configuration that is of the latest design, offering the optimum in cutting performance. All tips are 100% flame tested.
