

GEL KNEE COMFORT

865-00 - sewn-on cover
 # 865-01 - with snap-on removable cover, made with silicone free materials

CO-POLYMER RUBBER COVER
 Prevents marring and scratching, Sewn cap helps keep debris out

REAL GEL
 Injected directly into a donut shaped pad to provide comfortable knee cushioning

TOP STRAP
 Adjustable elastic with hook/loop closure for easy fastening

ELEVATED FACE
 Improves stability & traction, absorbs shock, helps support the knee while acting like a suction cap to prevent from rocking

LOWER STRAP
 Wide mesh elastic strap provides breathability and helps reduce bunching with hook/loop closure

SIDE TREADS
 Absorb pressure around the perimeter of the knee

INNER LINING
 Wicks away moisture for comfortable wear

HEAVY DUTY BINDING
 Assures long lasting wear

BALLISTIC NYLON
 Outer cover is highly resistant for most work environments

EXTENDED HEEL
 Supports the shin, helps distribute body weight reducing stress on the ankles and back discomfort

UOM: PR, CASE 18 ONE SIZE EN 14404+A1:2010

864-00

Sewn-on cover, GEL padding provides maximum comfort and knee protection. Breathable nylon mesh covers the padding. Double elastic straps with hook/loop closure. Elevated face with side extended threads offer extra stability.

UOM: PR, CASE 24 ONE SIZE EN 14404+A1:2010

863-00

Nylon outer cover is ideal for delicate surfaces such as hardwood floors and tiling. GEL padding helps disperse pressure. Solid webbing strap with quick-clip-release fastening system on the bottom. Elastic top strap has hook and loop closure.

UOM: PR, CASE 30 ONE SIZE EN 14404+A1:2010

876-00

Co-polymer rounded cover easily slides on smooth surfaces. Breathable nylon mesh covers the padding. GEL padding helps disperse pressure away from the patella bone. Dual adjustable straps with hook and loop closure.

UOM: PR, CASE 28 ONE SIZE EN 14404+A1:2010

NEW!

GEL COMFORT LEATHER COVER

Molded polyurethane and GEL injected into ergonomically shaped pad offers outstanding protection. Removable snap-on leather cover made with durable cowhide leather. Non-marring surface. Moisture wicking lining. Elastic top strap with hook/loop closure. Nylon webbing bottom strap with plastic buckle and metal button closure.

865-20

UOM: PR, CASE 20 ONE SIZE

NITRO COMFORT

Nitrogen injected foam padding with CoolMax® lining. Elevated Co-polymer cover fastened with rivets. Side threads acts as suction to keep knee from rocking. Double elastic straps with adjustable hook and loop closure.

874-00

UOM: PR, CASE 24 ONE SIZE

GEL-PRO COMFORT

Comfort while kneeling, standing or walking. Injected molded polyurethane and Gel padding offers superior protection and support. Articulating feet grips the surface providing excellent stability. Strapping system positioned above and below the knee eliminates discomfort behind the knee. Quick clip fastening system. Strapping system positioned above and below the knee eliminates bunching behind the knee.

Kneeling Mats

MAT5000 Single Knee

X-Standing Mats

IMPACTO MATS

Resilient cellular rubber NBR 1" foam rubber with built-in handle. Self extinguishing and non conductive. Does not compress set. Does not absorb liquids. Helps to reduce knee trauma and low back pain. Provides comfortable support and cushioning. Silicone-free. Fully washable. Designed for severe kneeling conditions in cold/hard, steel, concrete, grating, gravel, wet surfaces, dirt and mud. Impervious to petroleum products.

- # MAT5000 - 4" x 6", single kneeling CASE 14
- # MAT5040 - 8" x 16", Kneeling CASE 36
- # MAT5050 - 14" x 21", kneeling CASE 15
- # MAT5020 - 16" x 28", standing mat with beveled edge and safety strip CASE 6
- # MAT5030 - 18" x 36", standing mat with beveled edge and safety strip CASE 6

FOAM PAD

Dense inner core material, textured surface, convenient cutaway handle, water resistant, used for sitting or kneeling, great for gardening, dimensions 14" x 15" x 1". Multi-purpose lightweight mat. Sold per each. Case has 50 each.

CUD818

ANTI-FATIGUE STANDING

Chemical resistant with anti-slip backing. Helps reduce the cumulative trauma disorders commonly found in the standing workplace environment. Elastic design forces muscles to move even when standing still. Ergonomically designed to provide a comfortable place to stand for long periods. Used in assembly and manufacturing, factories, offices, laboratories, restaurants, workshops, schools, gas stations, airports and more. Has outside 3/4" beveled edge, Standard size 24" x 36" x 5/8"

WORKMAT2436

VINYL PAD

Closed cell PVC foam pad for comfortable cushioning. Vinyl coated surface is easy to clean and repels water, built-in hand shaped carrying cut out, ideal for kneeling, great for gardening, dimensions 18" x 7" x 7/8". Sold per each. Case has 50 each.

KNEELPAD

IMPACTO COMFORT MATS

Used for sitting, kneeling or leaning applications. Available in a variety of poly foam padding materials in varying densities for specific protection. Multiple fabric OUTER COVERS including leather, denim, Cordura, vinyl and fire retardant fabrics, for use in any environment. Mats can be customized to suit special needs and applications.

- # 970-80 - 15" x 24" x 3", Cordura

IMPACTO ANTI-FATIGUE INSOLES

Open-cell foam engineered for great resiliency, breathability and reducing heat build up. Provides constant cushioning and even distribution of weight to protect pressure points. IMPACTO Insoles provide superior impact, shock absorption and protection from heel strike. They help prevent lower back, foot, joints and leg pain as well as alleviate fatigue. Antimicrobial foam helps to reduce foot odor. Fully washable. Available in multiple styles to suit specific applications. All insoles are sold per pair.

AIRSOL FLAT

FULL FLAT Style. Made of open cell foam. Antimicrobial and breathable. Designed to provide comfort and support for every day wear, used with dress, sports and low cut footwear

ASFLAT

CASE 60

AIRSOL MOLDED

CONTOURED MOLDED Style. Provide heel stability and arch support, typically used with safety and rubber boots and shoes. All day protection when walking or standing on hard surfaces for prolonged periods

ASMOLD

CASE 30

IMPACTOSOL™ GEL

Flat style, Visco-Elastic Polymer heel to toe provides maximum shock and impact protection. Natural tackiness on the undersurface holds the insole in place to prevent slipping and bunching. Used with all types of footwear

IMFLAT

CASE 30

CUSH'N STEP™

Full molded style offers excellent protection when used with work boots, outer shoes and sports shoes. Soft, breathable fabric cover wicks away perspiration. Reinforced Gel heel insert provides additional cushioning and support

ERGOTECH INSOLES

- Ergonomically designed to provide cushioned support and shock absorbing comfort
- Versatile, lightweight insoles provide arch support, comfort and shock protection
- Help protect against back and knee pain and foot injuries such as plantar fasciitis
- Sorbothane insoles have proven to be a great defense against foot pain, back pain and impact-related injuries such as Achilles tendonitis, runner's knee and shin splints
- Sorbothane offers 94.7% shock-absorption, positioned at point of impact to reduce pain, jarring, fatigue and risk of injury
- Recommended by Doctors, sports medicine specialists and professional trainers worldwide
- Durable and long-lasting insoles retain their shock absorbing benefits

Sorbothane

ULTRA WORK-SPORT

A true performance replacement insole featuring a cupped heel and molded arch for stability along with Sorbothane inserts for foot-strike protection. Works well in athletic shoes or work shoes. Antibacterial soft fabric cover wicks away moisture. Comfort and protection for sports and work shoes and boots.

ERINWRK - sizes AA-H

CASE 20

ULTRA ORTHOTIC-ARCH

Combines orthotic arch support with Sorbothane foot-strike protection. Flexible graphite composite arch for maximum support, stability and comfort. Sorbothane heel and metatarsal insert ensures extra rebound with foot strike protection for a smoother, springier toe-off. Molded style with cupped heel.

ERINGRA - sizes A-G

CASE 20

SORBO-AIR

Air-infused Sorbothane foam offers lightweight comfort with the addition of 100% Sorbothane layer for heel strike protection and cushioning. Molded with cupped heel for rear foot stability. High-performance insole is for fitness enthusiasts, runners and walkers seeking extra arch support, comfort and rebound.

ERINWAL - sizes A-G

CASE 16

CLASSIC FLAT

Made of 100% Sorbothane for maximum head-to-toe protection and cushioning. Thin profile inserts can be used as an add-on insert as well as a replacement insole. Incorporates airflow channels for superior comfort. Flat style with moisture wicking fabric cover.

VISCOLAS HEEL PROTECTION

Visco-elastic polymer is formulated for orthopedic applications. Soft Viscolas won't "bottom out" under the weight of your body or with lots of wear. Viscolas can reduce symptoms of heel strike injuries such as tendonitis and shin splints. Non-irritating, resistant to fungal and bacterial growth and can easily be cleaned with soap and water. Natural tackiness keep the product in place. Hypoallergenic, safe for direct skin contact.

HEEL CUSHION

Effective protection from heel strike. Useful when the fit of the shoe does not allow for use of full insole or for tighter fitting shoes such as women's pumps. Assists in treatment of painful foot conditions. Soft fabric cover.

USA INS. HCPCS CODE L3485

HEEL SPUR CUSHION

Shock protection and pressure reduction for sufferers of calcaneal heel spurs or other acutely painful heel conditions. Removable plug allows for a cavity to be created beneath the area of greatest discomfort, while extra cushioning on the medial side of the plantar fascia provides added relief. Fabric cover.

USA INS. HCPCS CODE L3485

BLUE DOT™ HEEL CUP

Medical-grade silicone cushion with "Blue Dot" area with softer silicone to help cushion the heel for greater comfort underfoot. The cupped design forces the fatty pad of the heel (the body's own natural defense against skeletal shock) downward for extra protection. Ideal for athletes or people who walk for long periods.

USA INS. HCPCS CODE L3485

RELIEVER INSOLES

Made of Viscolas to cushion the shock that is created at heel strike. Surface tackiness adhesive keeps insoles in place and prevent bunching. Moisture wicking fabric cover. Protect from shock to reduce the foot, leg, and back pain experienced during the day. Also helpful to treat postoperative conditions.

USA INS. HCPCS CODE L3040

ULTRA PERFORMER INSOLES

Closed cell foam high-profile footbeds offer a lighter-weight alternative to solid viscoelastics. Contoured molded style with moisture wicking fabric cover. Gel inserts in the heel and metatarsal area for added foot stabilization and support. Recommended for use with boots, work and athletic shoes.

USA INS. HCPCS CODE L3040

ORTHOTICS COMPONENTS

Modular Orthotic System allow the flexibility to formulate immediate custom specialized orthotics for patients requiring moderate adjustments. Every component of the orthotic system is designed to deliver long-lasting benefits. Superior compression resistance allows Viscolas to retain its total effectiveness for long periods. Self-adhesive components that stay in place where you put them. The natural tackiness can be increased with an application of alcohol or decreased with a dusting of talcum powder.

ERGOMATES™ MOBILE ANTI-FATIGUE MATTING SYSTEM

- Effective solution for relief of tired, sore, feet, knees and back improving safety and comfort
 - Allows the muscles to expand and contract naturally as they adjust to the flexibility and give-and-take of the cushioning material
 - Improve circulation dramatically reducing pain and fatigue from walking and standing, insulating the worker from the negative effects of impact, vibration and cold
 - Protect the heel and sole of the shoe from wear and tear
 - Ideal for areas where anti-fatigue matting is impractical due to length required or moving equipment
 - Can be comfortably worn over closed shoes, boots and safety shoes
 - Extremely durable and machine washable
 - US Patent No. 6,968,634, other patents pending
- # G88EXT - 6" extension straps available

Ergo Mate

Original Ergo Mates are suitable for all industries: warehouses, factories, assembly lines, machine shops, retail outlets, cashiers, clerks, laundry facilities, health care, postal workers, aircraft, warehouses, food processing, and any situation requiring prolonged standing or walking.

Ergo Mate LITE

Exceptional fit for the occasional user; like trade show participants, plant managers, temporary employees or office managers. They also work great for lighter individuals (<150lbs) and or for those recovering from lower body, leg, foot or related MSD injuries.

Ergo Mate H2O

Sealer in upper and lower soles protect against cross contamination in food industry applications. Unique self-cleaning tread design. Easily cleanable hygienic sealed top and bottom surfaces. Resistant against most oils, solvents and cleaning agents. Ideal for food production and service workers, kitchen employees, abattoirs, canneries, custodial and health care workers.

Ergo Mate ICER

Unsurpassed traction on ice and snow. Outdoor Ergomates designed for anyone required to be walking, standing or working on ice or snow. Retractable cleats consists of 32 titanium anti-spark cleats mounted into a PVC packet. A layer of Ergos EVA anti-fatigue foam core holds cleats steady during contact with the ground. ICER are suitable for postal workers, airport authorities, military, emergency response, utility workers, property management, railroad workers, road maintenance workers, recreation and fitness enthusiasts.

Ergo Mate Tracmates

Superior slip resistance wet or dry. Lightweight design, durable in wet environments. Resistant against most oils, solvents and cleaning agents. Unique reusable design, easily cleanable, simply rinse and dry. Ideal for any person who is stripping, washing, or scrubbing floors; food processing, working on slippery surfaces; custodial and janitorial workers, kitchen and health care facilities. Sizes M, L and XL. Sold per dozen only.

METATARSAL PROTECTOR

The METGUARD® safety footwear attachment protects the metatarsal area of the foot by deflecting and dispersing the impact of falling loads. Designed and tested to compliment steel cap footwear. The lip of the METGUARD sits on top of the steel cap at load point.

- Extremely durable, non conductive, lightweight polycarbonate material
- Secured with existing laces or optional straps to secure to non-lace up footwear such as rubber boots
- Practical safety solution, transferable between users and footwear
- Comfortable, easy to fit and simple to use
- Suitable for use in all workplaces and industries including mining, construction, manufacturing, transport, utilities, forestry, retail trade, airports, cities and municipalities, government facilities, shipyards
- Meets minimum impact resistance of 75 lbs. as specified in ASTM F2412-11/F2413-11

METGUARD - sold per pair, one size, 20 pairs per case

METSTRAP - optional straps for footwear without laces

METGUARD
