

# EXTA-10 Series C Moulded Case Circuit Breakers

External Accessories Handle Locking and Blocking Devices

## Lock Dog (non-padlockable)

### G-Frame GD/GC/GHC/GCH/GB/GHB/GBH/GMCP Ordering Information

Number Units in Package	Catalogue Number
1	1294C01H01

## Non-padlockable Handle Block

The Non-padlockable Handle Block secures the circuit breaker handle in either the ON or OFF position. (Trip-free operation allows the circuit breaker to trip when the handle block holds the circuit breaker handle in the ON position.) The device is positioned over the circuit breaker handle and secured by a setscrew to deter accidental operation of the circuit breaker handle. CSA and UL listed. (Field installation only).

## Snap-On Padlockable Handle Lock Hasp

### G-Frame GD/GC/GHC/GCH/GB/GHB/GBH Ordering Information

Number Units in Package	Catalogue Number <sup>①</sup>
10	1223C77G03 (GPLK)
10	1223C77G05 <sup>②</sup> (GPLKOFF)

<sup>①</sup> Accepts .285 Lock Shank

<sup>②</sup> Padlockable in the OFF position only.

The Snap-On Padlockable Handle Lock allows the handle to be locked in the OFF or ON position. (Trip-free operation allows the circuit breaker to trip when the handle lock holds the circuit breaker handle in the ON position.) This device was designed for use on the 1-pole circuit breaker, but may be used on 1-, 2-, 3- and 4-pole styles. The handle lock snaps onto the escutcheon area of the handle with an optional retaining screw for added secureness. The handle lock will accommodate one padlock with a 1/4-inch (6 mm) shackle. CSA and UL listed. (Field installation only).
