## TELE－POWER® POLES

Tele－Power ${ }^{\circledR}$ Poles provides a cost－effective，configurable solution for distributing power and communication services to open spaces．

## CODE REFERENCE

cULus Listed Multioutlet Assemblies： File E15191，E178348 Guide PVGT
Raceway Fittings：File E41751 Guide RJPR
Accessories：File E53857 Guide RVUR
Meets Article 380 \＆ 386 of NEC．

## Steel Tele－Power Poles Ordering Information

NOTE：Custom colors，other lengths （ $20^{\prime}$［ 6.1 m ］max．）or additional circuits are available on custom order．Consult factory for more information．Can be factory or field wired with many commercially available devices．

Tele－Power Poles provide a wide range of options for distributing services from overhead systems to open space office，commercial，and retail areas．

## COLOR OPTIONS

25DTP／DTC Series Tele－Power Poles are
now available in two colors：ivory and
designer gray．
Custom color options are also available．
Consult the factory for more information．

* $20 \%$ cable fill is calculated to approximate reduction in cable capacity due to connectors mounted within pole section that may restrict cross-sectional areas.
** $40 \%$ cable fill is the maximum designed cable fill based on a proposed revision to TIA/EIA 569-A.

## Aluminum Tele-Power Poles

When looking to dress up a vertical solution, Tele-Power Poles with a satin anodized aluminum finish in either rectangular or round styles can provide the answer. Light weight aluminum construction makes these poles easy to install and maneuver on the job site. Available prewired with electrical devices or blank to drop services feeding another wire and cable management system, such as electrified modular furniture. A full range of accessories enables field configurability, or have them delivered to your specifications.

AMDTP-4

ALTP

NOTE: There is no method provided for mounting data in this pole.

## AMDTP-4 Series Tele-Power Poles Ordering Information

## AMDTP-4 Tele-Power Pole

## AMDTP-4, AMDTP-412, AMDTP-415

Two-compartment pole (power and communications). Nominal material thickness .050" [1.8mm]. Length: 10'5" [3.2m]. Factory wired with 20A 125V fed-spec general grade duplex style receptacles. An opening for communication and a $1 / 2$ " $[12.7 \mathrm{~mm}$ ] hole for power is provided at top. The 8" [203mm] cover at top front of pole is removable for making power wiring connections. Communication KO s provided for RJ11/RJ45 and modular furniture connectors. Mounting hardware, entrance end fitting, and ceiling trim plates furnished. Anodized aluminum finish. Available in standard lengths of 10' $5^{\prime \prime}$ [3.2m] (AMDTP-4), 12' $5^{\prime \prime}$ [3.8m] (AMDTP412), and $15^{\prime} 5^{\prime \prime}[4.7 \mathrm{~m}]$ (AMDTP-415).

NOTE: Custom colors, other lengths ( 20 [ 6.1 m ] max.) or additional circuits are available on custom order. Consult factory for more information. Can be factory or field wired with many commercially available devices.

## TELE-POWER® POLES

## Aluminum Tele-Power Poles

AMDTP-4 Series Tele-Power Poles Ordering Information (continued)

## AMDTP-4D Tele-Power Pole

Identical to AMDTP-4 except factory wired with one 20A 125 V dedicated/ isolated ground duplex receptacle and one standard 20A 125V duplex receptacle.

## AMDTP-4-C, AMDTP-412-C, AMDTP-415-C Tele-Power Pole

Available in Canada Only. Two-compartment pole (power and communications). Nominal material thickness .050" [1.8mm]. Length: 10'5" [3.2m]. Factory wired with 15A 125 V fed-spec general grade duplex style receptacles. An opening for communication and a $1 / 2^{\prime \prime}$ [12.7mm] hole for power is provided at top. The 8 " [203mm] cover at top front of pole is removable for making power wiring connections. Communication KOs provided for RJ11/RJ45 and modular furniture connectors. Mounting hardware, entrance end fitting, and ceiling trim plates furnished. Anodized aluminum finish. Maximum ceiling height $10^{\prime}[3 \mathrm{~m}]$. Comes with a 10 ' [3.0m] cord. Available in standard lengths of $10^{\prime} 5{ }^{\prime \prime}$ [3.2m] (AMDTP-4-C), 12'5" [3.8m] (AMDTP-412-C), and $155^{\prime} 55^{\prime \prime}$ [4.7m] (AMDTP-415-C).

## ALTP Series Tele-Power Poles Ordering Information

## ALTP-2S Tele-Power Pole

Satin anodized extruded aluminum pole. Nominal wall thickness .060" [1.5mm]. Length $10^{\prime \prime} 5{ }^{\prime \prime}[3.2 \mathrm{~m}$ ]. Twocompartment (power and communication channels) Factory wired with four 15A 125V NEMA 5-15R devices. Provided with one $1 / 2^{\prime \prime}$ [ 12.7 mm ] trade size KO in cover at base for communications. T-bar mounting hardware, ceiling trim kit, and feed box furnished.

## ALTP-20W Tele-Power Pole

Identical to ALTP-2S, with painted office white finish.

## ALTP-2P Tele-Power Pole

Identical to ALTP-2S, with polished aluminum anodized finish.

NOTE: There is no method provided for mounting data in this pole.

■ Satin anodized aluminum poles blend neatly into just about any environment.

- Standard poles accommodate 10-, 12-, and 15-foot ceilings.
- Modified communication compartment offers a dense concentration of knockouts for modular voice/data jacks and furniture outlets, or "mouse hole" grommet for direct cable feed.
- Isolated ground protection offered in dedicated circuit pole.
- Add-on covers for field modification.
- Round aluminum poles are offered in painted, polished, and satin anodized finishes.
