

Water, oil & dust tight hinged terminal boxes, metric

- Quick Features :**
- Poured gasket
 - Drip shield
 - Seamless welding
 - Internal & external mounting
 - Mounting brackets included
 - Powder coated

The 6412 ESCHTB are used indoors or outdoors to protect the enclosed controls from dust, dirt, oil and water splashing. The 6412 ESCHTB are made from quality 16 GA steel, with corner seems continuously welded. The opening has a curled lip around all sides to prevent dripping water from entering the enclosure when the door is open, it also increases rigidity. A high quality robotically poured-in-place seamless gasket

ensures a complete and durable water tight seal. This enclosure features incorporated hinging, meaning that the hinge is a part of the box and part of the cover. This minimizes the amount of welding and allows the door to be easily removed by pulling out the full length mushroom head hinge pin. The enclosure can be internally mounted or externally mounted using optional die cast wall mounting feet. These feet

have oblong holes to facilitate installation. Mounting brackets are welded to the bottom of the enclosure. Inner panels can be ordered separately, see page 120. Enclosures are finished with heat fused polyester powder, electrostatically applied on a phosphatized base. Box is RAL7035 textured light grey. **CSA Certified / UL Listed NEMA 4-12 / IP66**
