# **ECSJ Series CurrentWatch Current Switches**

# **Product Description**

The CurrentWatch ECSJ Series current operated switches from Eaton's electrical sector provide the same dependable indication of status offered by the CurrentWatch ECS Series, but with the added benefit of increased setpoint precision. A choice of three, jumperselectable input ranges allows the ECSJ Series to be tailored to an application, providing more precise control through improved setpoint resolution. Selfpowering, isolated solid-state outputs, 1-6A, 6-40A and 40-200A input ranges, and a choice of split- or solid-core enclosures are standard.

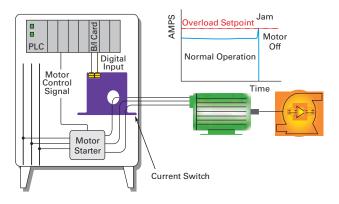

For typical applications of the CurrentWatch ECSJ Series, see listing on this page.

## **Application Description**

# **Typical Applications**

- Electronic Proof of Flow—Current operated switches eliminate the need for multiple pipe or duct penetrations and are more reliable than electromechanical pressure or flow switches
- Conveyors—Detect jams and overloads
- Lighting Circuits—Easier to install and more accurate than photocells
- Fans, Pumps and Heating Elements—Faster response than temperature sensors
- Critical Motors
- Ancillary Equipment

# Example Application— Pump Jam and Suction Loss Protection

#### **Features**

- Choice of NO or NC Solid-State Outputs—
  - 1A at 240 Vac
  - 0.15A at 30 Vdc
  - 15A at 120 Vac
  - 3A at 120 Vac
  - 0.15A at 30 Vdc, dual contact
- Self-Powered—Cuts installation and operating costs
- Easily Adjustable
   Setpoint—Speeds start-up
  and reduces inventory

- Solid- or Split-Core Housings—Choose the appropriate version for your application
- LED Indication—Provides quick visual indication of output contact status
- Built-In Mounting Feet— Provide for a secure installation
- UL, cUL and CE Approved—Accepted worldwide

For Customer Service in the U.S. call 1-877-ETN CARE (386-2273), in Canada call 1-800-268-3578. For Application Assistance in the U.S. and Canada call 1-800-426-9184.

# **A** DANGER

THIS SENSOR IS NOT A SAFETY DEVICE AND IS NOT INTENDED TO BE USED AS A **SAFETY DEVICE. This sensor** is designed only to detect and read certain data in an electronic manner and perform no use apart from that, specifically no safetyrelated use. This sensor product does not include self-checking redundant circuitry, and the failure of this sensor product could cause either an energized or de-energized output condition, which could result in death, serious bodily injury, or property damage.
