

## easyRelay Power Supplies, Accessories and Software

## easyRelay Power Supplies, Accessories and Software

### Product Description

**Power Supplies**—12 Vdc and 24 Vdc power supplies for applications where only 100–240 Vac is available.

**Accessories**—Memory modules, cables and other components to complete your automation solutions.

**Software**—The easySoft software is used to program all of the easyRelays and MFD-Titan displays. The Windows®-based software provides straightforward circuit diagram input and editing and the diagrams can be displayed in the format desired. When easy800 and MFD-Titan controllers are connected using easyNet, all connected devices can be accessed and their programs loaded from a single controller.

easySoft includes an integrated offline simulation tool that allows users to test a circuit diagram before commissioning.

### Product Selection

Power supply units are primary switched-mode power supplies that are optimally suited for the easyRelay and easySafety product series in terms of functions and design. The new and high-performance power supply units support safe operation in plants and machines. They are simple and flexible in handling.

Fast diagnosis of the voltage output: continuous light on the LED—fault-free operation; flashing on the LED—short circuit or overload on voltage output.

- Suitable for worldwide use due to wide range input from 85 V to 264 Vac, 50/60 Hz
- Output voltages can be connected in parallel to increase power output or for redundant operation to achieve greater system availability
- Compliance with international standards and approvals

The primary switched-mode power supply units can be used everywhere:

- Safety extra low voltage (SELV to EN 60 950)
- Radio interference Class B to EN 55 011 and EN 55 022 for use in industrial and public networks

### EASY...-POW

### Power Supply Units

Rated input voltage 100–240 Vac, single-phase.

Input Voltage Range	Rated Output Voltage	Output Voltage Setting Range	Rated Output Power	Rated Output Current	Catalog Number
100–240 Vac	24 Vdc/12 Vdc	—	8 W	0.35 A/20 mA	<b>EASY200-POW</b>
	24 Vdc	—	30 W	1.25 A	<b>EASY400-POW</b>
	24 Vdc	—	60 W	2.5 A	<b>EASY500-POW</b>
	24 Vdc	—	100 W	4.2 A	<b>EASY600-POW</b>
