

Product Preference Selector

Use the selector below to identify which respirator may be preferred for increased worker comfort.

What type of particles are in your environment?

Oil and Non-Oil R- or P-Series Respirators

Non-Oil N-Series Respirators

Didn't find what you want? Don't forget that R and P series respirators can also be used in non-oil environments.

*3M recommended for ozone protection up to 10X OSHA PEL. Not NIOSH approved for ozone.
 **3M recommended for relief against nuisance level acid gas (AG) or organic vapors (OV).
 Nuisance levels are less than OSHA PEL or applicable government occupational exposure limits, whichever is lower.

A breath of fresh air.

These respirators all feature the proprietary 3M™ Cool Flow™ Exhalation Valve – designed to release hot, humid exhaled breath quickly, helping to reduce heat build-up and moisture inside the facepiece.

N95 Respirators

8511 (N95) AAD #07185

Stays cooler!* Our most popular valved model is suited for hot, humid environments, or for long periods of wear.

* Compared to non-valve disposable respirators.

8211 (N95)

All the great features of the 8511, plus a comfortable foam face seal. Its design helps protect against certain **non-oil based** particles.

9211+ (N95) AAD #37193

Comfort meets convenience. Three-panel respirator that's suited for work situations involving heat, humidity, or long periods of wear.

Individually packaged

8210V (N95)

An economical option when a valved respirator is desired, this respirator is based on the popular 8210 and features the proprietary 3M™ Cool Flow™ Valve.

100 Class Respirators

Typically used for certain OSHA substance specific contaminants (excluding asbestos but including lead, MDA, arsenic, and cadmium); and pharmaceutical manufacturing.

8293 (P100)

For those who want NIOSH's highest-rated filtration efficiency in a disposable respirator, this provides a minimum filter efficiency of 99.97% against **oil-based** particles.

Individually packaged

8233 (N100)

For those who want NIOSH's highest-rated filtration efficiency in a disposable respirator, this provides a minimum filter efficiency of 99.97% against **non-oil based** particles.

Individually packaged

IMPORTANT: All 3M products shown in this catalog must be used in accordance with the OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

Featured Technologies

3M's technological benefits help you match the right respirator to your environment. Use this color code to identify which features are included on each respirator.

Advanced Electrostatic Media

Breathe easier! Proprietary filter media allows greater air flow while capturing more contaminants in the electrostatically-charged microfibers.
