

COMFORT
Seamless 13-gauge liner provides flexibility and breathability.

GRIP
MicroFinish® nitrile coated palm provides oil resistance and grip.

KNIT NITRILE

The Knit Nitrile glove was designed to provide all-around performance at an unbeatable price. A seamless 13-gauge liner is combined with an extended slip on cuff for comfort and breathability. A soft but durable MicroFinish® nitrile coating on the palm provides oil resistance and gripping power under the hood or in the workplace. *IMPORTED*

SIZES

S/M - L/XL

TEAM ISSUE™ LEVEL 1

Our Team Issue™ Level 1 glove is constructed with a sturdy CarbonX® lined genuine leather palm and backed with a comfortable top layer of fire-retardant CarbonX® stretch-knit with SFI Level 1 protection. The wide leather cuff allows for easy entry and a fit you can trust when the heat is on. Meets or exceeds SFI 3.3/1 specifications. *IMPORTED*

FIRE RETARDANT
Sturdy CarbonX® lined genuine leather palm backed by a heavy CarbonX® top meets or exceeds SFI rating 3.3/1.

CXG-L1 BLACK

SIZES

S - XXL

FIRE RETARDANT
CarbonX® lined genuine leather palm with two top layers of heavy CarbonX® meets or exceeds SFI rating 3.3/5 & ARC 47.6 specifications.

TEAM ISSUE™ LEVEL 5

Our Team Issue™ Level 5 is constructed with a sturdy CarbonX® lined genuine leather palm and backed with two top layers of fire-retardant CarbonX® stretch-knit, shielding your entire hand with SFI level 5 protection. Intense conditions demand increased protection so we incorporated a high-density accordion knuckle to shield your hands against hazardous impact. The wide leather cuff allows for easy entry and a fit you can trust when the heat is on. Meets or exceeds SFI 3.3/5 & ARC 47.6 specifications. *IMPORTED*

DURABILITY REDEFINED

Outlasts All Other Synthetic Leathers

Material4X® synthetic leather outperforms standard synthetic leather gloves and rivals the function and feel of natural leather. The secret is in the dense fiber structure of Material4X®. Natural leather is not always uniform in thickness and can have inconsistent fibers depending on the portion of the hide. The dense fiber structure of Material4X® provides consistent quality, higher abrasion and greater tear resistance than standard synthetic leather gloves.

DURABILITY
Material4X® delivers higher abrasion resistance and greater tear resistance than standard synthetic gloves.

FIT
Form-fitting TrekDry® helps keep hands cool and comfortable.

MATERIAL 4X ORIGINAL®

The glove that gave us our name in motorsports returns with Material4X® durability. Material4X® synthetic leather redefines durability with higher abrasion resistance and greater tear resistance than standard synthetic gloves. Material4X® is completely machine washable, making this glove as practical as it is popular. With the same fit and feel of our Original® glove, Material4X® proves that a good thing can just keep getting better. *IMPORTED*

SIZES

S - XXL

MATERIAL4X®
Material4X® delivers higher abrasion resistance and greater tear resistance than standard synthetic gloves.

KNUCKLE GUARD
Impact Guard™ frees the index finger and molded Thermal Plastic Rubber (TPR) disperses impact and abrasions.

MATERIAL 4X M-PACT®

The Material4X® M-Pact® combines critical impact protection with a durable Material4X® palm for the ultimate tool. The new dual-layer internal fingertip construction provides added strength, while the embossed and textured index and thumb deliver improved grip. Material4X® durability offers higher abrasion resistance and greater tear resistance than standard synthetic leather. Flexible Thermal Plastic Rubber (TPR) creates an exoskeleton protecting the back of the hand from impact and abrasion injuries, while XRD® palm padding absorbs impact and vibration from high-impact tools and heavy lifting. When the going gets rough, reach for the M-Pact® with Material4X® durability to get the job done. *IMPORTED*
