

Plug Into Safety® with Tamper-Resistant (TR) Receptacles

A full line of products to meet your every need.

Child safety is a priority at Leviton and that's why we offer our entire line of receptacles in Tamper-Resistant (TR) models. The National Electrical Code® requires TR Receptacles in new or renovated housing, childcare facilities, guest rooms and suites, and when replacing existing receptacles in required locations. TR devices have a shutter mechanism inside the receptacle that blocks access to the contacts from most foreign objects. Leviton leads the way in safety advances with a wide range of tamper-resistant devices in Residential, Commercial, Hospital and Industrial Grades.

Applications

- New or renovated single- and multi-family housing
- Schools, libraries, childcare and healthcare facilities
- Guest rooms and guest suites

Features and Benefits

- Shutter mechanism inside the receptacle blocks access to the contacts unless a two- or three-prong plug is inserted, helping ensure hairpins, keys, etc., will be locked out
- TR Symbol on the strap or body of device meets NEC requirement
- Selection includes Residential, Commercial, Hospital and Industrial Grade receptacles
- Heavy-duty construction offers long, trouble-free service life

Agency Certifications TR Receptacles

- UL/CULus
 - GFCI (File# E-48380)
 - AFCI (File# E-342815)
 - Dual Function AFCI/GFCI (File# E-480630)
