	7100093044	35-1101-30iSW-CA	3M™ Adflo™ Powered Air Purifying Respirator, 35-1101-30iSW-CA, with 3M™ Speedglas™ Welding Helmet, 9100-Air, and 3M™ Auto Darkening Filter, 9100XXi	3M™ Adflo™ Powered Air Purifying Respirator (PAPR), 35-1101-30iSW-CA, is a high efficiency particulate respiratory protection system, offering welders compact, lightweight respiratory protection and quality filter optics all-in-one. Audible and visual alarms signal low airflow and low battery charge. With improved optics (compared to our previous generation helmets), the 3M™ Speedglas™ Auto Darkening Filter 9100XXi allows you to more readily recognize colours as compared to our other models, helping welders focus on set-up, welding technique, precision grinding, and inspection of just completed welds. 3M™ Adflo™ PAPR System features a lithium ion battery, a high efficiency particulate filter that can be stacked onto an optional 3M™ Adflo™ Cartridge for additional protection, and a wide leather belt.
	7100093047	06-0000-30i-KIT-CA	3M™ Speedglas™ Auto Darkening Filter, 9100XXi with silver front panel, 06-0000-30i-KIT-CA	This kit includes 3M™ Speedglas™ Auto Darkening Filter 9100XXi and 3M™ Speedglas™ Silver Front Panel 9100XXi. With improved optics (compared to our previous generation helmets), the 3M™ Speedglas™ Auto Darkening Filter 9100XXi allows you to more readily recognize colours as compared to our other models, helping you focus on your welding set-up, welding technique, precision grinding, and inspection of just completed welds. The 3M™ Speedglas™ Silver Front Panel 9100XXi houses external controls, enabling fast and easy access to the grinding and memory modes.
	7100093131	25-5702-30iSW-CA	3M™ Speedglas™ Fresh-Air III Supplied Air Respirator, 25-5702-30iSW-CA, with V-100 Valve and 3M™ Speedglas™ Welding Helmet, 9100-Air, and Auto Darkening Filter, 9100XXi	3M™ Speedglas™ Fresh-Air III Supplied Air Respirator 25-5702-30iSW-CA system provides lightweight respiratory protection for welders, with a belt-mounted air-cooling valve designed for hot, strenuous jobs. With improved optics (compared to our previous generation helmets), the 3M™ Speedglas™ Auto Darkening Filter 9100XXi allows welders to more readily recognize colours as compared to our other models, helping increase focus on welding set-up, welding technique, precision grinding, and inspection of just completed welds. This system features a V-100 Vortex air-cooling valve, and complete 3M™ Speedglas™ Welding Helmet 9100-Air.
	7100093155	06-0100-30iSW-CA	3M™ Speedglas™ Welding Helmet, 9100, 06-0100-30iSW-CA, with Auto-Darkening Filter 9100XXi	3M™ Speedglas™ Welding Helmet 9100 with Auto Darkening Filter 9100XXi can be used for Stick, MIG, and TIG welding processes. Compared to our other models, the 3M™ Speedglas™ Auto Darkening Filter 9100XXi allows you to more readily recognize colours. This may help you focus on your welding set-up, welding technique, precision grinding, and inspection of just completed welds. The 3M™ Speedglas™ Silver Front Panel 9100XXi houses external controls, enabling fast and easy access to the grinding and memory modes.
	7100094478	06-0000-30i-CA	3M™ Speedglas™ Auto Darkening Filter, 9100XXi, 06-0000-30i-CA, shades 5, 8-13	3M™ Speedglas™ Auto Darkening Filter 9100XXi offers the same large viewing area as our 3M™ Speedglas™ Auto Darkening Filter 9100XX, but thanks to improved optics (compared to our previous generation helmets), it allows you to more readily recognize colours as compared to our other models. This may help you focus on your welding set-up, welding technique, precision grinding, and inspection of just completed welds. 3M™ Speedglas™ Auto Darkening Filter 9100XXi fits with all 3M™ Speedglas™ Welding Helmet Series 9100.
