Fastener Specifications & Head Styles

Flat Head – Flat top with a countersunk bearing surface. Available with 4 lugs to assist with countersinking.

Tête Plate – Surface plate. Appui fraisé. Disponible avec nervures pour assister le fraisage.

- General purpose Construction | Pour utilisation générale

Oval Head – Slightly rounded decorative top with a countersunk bearing surface.

Tête Ovale – Surface décorative légèrement arrondie. Appui fraisé.

- Mainly used in hinge applications in woodworking | Principalement utilisé pour fixer des charnières

Pan Head – Semi elliptical top surface with a flat bearing surface.

Tête à Dépouillée – Surface demi elliptique avec appui plat.

- General purpose construction | Pour utilisation générale

Round Washer Head – Rounded top with built-in washer for larger bearing surface.

Tête Ronde avec Rondelle – Surface arrondie avec rondelle incorporée pour une plus grande surface d'appui.

- Mainly used in cabinet installations | Principalement utilisé pour l'installation de cabinet

Truss Head – Low-profile semi-elliptical top with flat bearing surface.

Tête Truss – Surface avec un profile bas, demi elliptique avec appui plat.

- Used for drawer handle pull, in cabinets and the wood working industry | Pour utilisation pour poigné dans l'industrie du meuble ou armoire de cuisine

Hex Washer Head – Indented hex top with built in washer for larger bearing surface.

Tête Hexagonale avec Rondelle – Surface hexagonale évidée avec rondelle pour.

- General purpose use, but mainly used with steel applications | Pour utilisation générale mais surtout pour application de métal

Threads & Points

Lo-Root®

Lo-Root® Thread - Single lead deep thread with a wide spacing for superior holding in softwoods and particle boards.

Lo-Root® - Dans les matériaux tendres et agglomérés, ses filets creux ainsi que le diamètre du corps réduit, cause moins de distorsion et augmente la résistance contre l'arrachement.

Kwixin®

Double Lead Thread – A stronger screw with twin lead threads for faster drive times. Ideal for use in hard woods.

Kwixin® – Filets jumelés pour une pénétration rapide. Idéal pour les bois francs.

Tapping

Wood / Metal Tapping – Fully threaded single lead type "A" thread, with gimlet point. Ideal for use in wood, metal and plastics.

Vis à Bois/Métal – Pointe vrillée, filetée au complet idéal pour le bois, le métal et les plastiques.

Camtap®

Camtap® Z – Combines the advantages of a thread forming screw and drill point, eliminating the need to pre-drill into metals.

Camtap® Z – Les avantages combinés d'une vis qui élimine le préperçage et qui forme ses filets.

Candril® "S"

Sharp Point – Type S point (28-36 degrees). With double lead thread. Pierces easily into light gauge sheet metal.

Candril® "S" – Pointe fine et aiguisée (28-36 degrés). Perce facilement le métal en feuille léger.
