

E-Lume LED PAR lamps have a similar look to traditional halogens with their aluminum heat sink and glass diffuser. They are wet location rated which allows them to be installed everywhere. With a choice of colour temperatures and beam angles, these lamps are the perfect solution when replacing your traditional lamps. Completely dimmable, they allow you to create any desired ambiance.

Halogen lamp design

With an aluminum heat sink and a quality glass lens, this LED lamp looks just like a traditional PAR lamp.

Many options to choose from

- 2 700 K or 3 000 K colour temperature
- 25° or 40° beam angle

Suitable for all occasion

Entirely dimmable, this LED PAR lamp allows you to create any desired mood.

LED PAR Lamps

¹ Life rating based on L70 lumen depreciation design criteria. Average life of lamps that have been approved for ENERGY STAR early submission or complete submission can vary. ENERGY STAR early submission dictates that manufacturers can only claim 25 000 hour life with 3 000 hour actual life test data, 6 000 hour LM-80 data and in-situ temperature measurements. Once a product has been fully qualified, manufacturers may increase the lifetime of a product by demonstrating full compliance with the ENERGY STAR criteria at the new lifetime with Lumen Maintenance at the minimum required test period.

² Typical lumens +/- 10%
