

The power you need

Makita has introduced a 5.0Ah Lithium-ion battery which will provide maximum power and extended run time for operators.

Where charging capacity is distant and would mean valuable time lost away from the operating point, extended run time is all important. The new Makita 5.0Ah 18v Li-ion battery provides 66% more run time whilst maintaining the same size and weight so maintaining the excellent balance and comfort of a Makita tool in use.

Body only and battery versions available for these products unless otherwise stated.

18v LXT Blower DUB182Z DUB183Z

Comfortable, single hand grip with air volume setting dial, vacuum functionality and designed to be very light weight.

18v Grass Shears DUM168

Battery capacity warning lamp
Lock-off button prevents accidental startup.

18v Hedge Trimmer DUH523

The DUH523 features user replaceable blade and the rubberised soft grip that provides more control and comfort. The durable shear blade with special coating is designed for easy clearing and cleaning so that the impressive 1,350 strokes per minute can get on with the job.
