## OVERVIEW

The WSX family of wall switch occupancy sensors provides simple and cost effective solutions for commercial and residential lighting control applications. All WSX family sensors have a stylish low profile appearance, soft-click buttons, and provide small motion detection up to $20 \mathrm{ft}(6.10 \mathrm{~m})$, making them perfect for private offices, private rest rooms, closets, copy rooms, or any other small enclosed space. Additionally, all WSX family sensors have a patent-pending wiring method that enables them to function either with or without a neutral connection. WSX units come pre-configured for wiring without a neutral, however if connection to neutral is required by code, contractors can convert the unit in seconds. With optional flash programming via the Sensor Switch VLP mobile device application, the user can easily change time delay, on mode and photocontrol settings.

## FEATURES

- Compatible with 0-10V dimming luminaries
- $100 \%$ passive detection
- Small motion detection up to 20 ft
- Programmable with Sensor Switch VLP app or traditional push button, refer to ordering information for availability
- Dual technology (PDT) utilizes PIR/Microphonics ${ }^{\text {TM }}$ detection
- Self-grounding mounting strap
- Convertible Neutral to Ground - depending on code, accommodates powering over ground or neutral connection in one device
- Miswire Protection - interchangeable line and load wires, no damage to device if line voltage is miswired to $0-10 \mathrm{~V}$ wires
- Integrated photocell with Adaptive Daylight Harvesting (ADH)
- Vandal resistant lens

Dimming Occupancy Wall Switch

## Warranty

5 -year limited warranty. Complete warranty terms located at:

## www.acuitybrands.com/CustomerResources/Terms and conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

ORDERING INFORMATION

NOTES:

1. Max Dim Level default set to 9.1 VDC . Min Dim Level default set to 1.5 VDC .
2. Wall plated included for white or ivory only for 347 VAC units.
3. Matching wall plate provided for $120 / 277$ VAC units.
4. Special order.
5. For setting other than default, minimum order quantity of 30 units.
6. Available only on WSX PDT Series.

| Size: | $2.74^{\prime \prime} \mathrm{Hx} 1.68^{\prime \prime} \mathrm{W} \times 1.63^{\prime \prime} \mathrm{D}(6.96 \mathrm{~cm} \times 4.27 \mathrm{~cm} \times 4.14 \mathrm{~cm})$ |
| ---: | :--- |
| Weight: | (not including ground strap) |
| Mounting: | Single Gang Switch Box |
| Mounting Height: | $30-48$ in $(76.2-121.9 \mathrm{~cm})$ |
| Maximum Load/Pole: | (Relay) $800 \mathrm{~W} @ 120 \mathrm{VAC}, 1200 \mathrm{~W} @ 277 \mathrm{VAC}, 1500 \mathrm{~W} @ 347 \mathrm{VAC}$ |
| Minimum Load: | None |
| Motor Load: | $1 / 4 \mathrm{HP}$ |
| Max Sink Current: | 50 mA |
| 0.10 V Dim Min Output: | $<0.3 \mathrm{~V}$ |
| Frequency: | 50160 Hz (timers are 1.2 x for 50 Hz ) |
| Temperature Rating: | $0^{\circ} \mathrm{C}-60^{\circ} \mathrm{C}$ |

ROHS Compliant

## COVERAGE PATTERNS

- Small motion (e.g. hand movements) detection up to $20 \mathrm{ft}(6.10 \mathrm{~m}), \sim 625 \mathrm{ft} 2$
- Large motion (e.g. walking) detection greater than $36 \mathrm{ft}(10.97 \mathrm{~m}), \sim 2025 \mathrm{ft} 2$
- Wall-to-wall PIR coverage
- Units with -PDT (Passive Dual Technology) option (also called Microphonics) provide overlapping detection of human activity over the complete PIR coverage area. Advanced filtering is utilized to prevent non-occupant noises from keeping the lights on.
- Tested to NEMA WD 7-2011

## CONVERTIBLE NEUTRAL

GROUND ONLY

NOTES:
1.) Per NEC requirements, the $0-10 \mathrm{~V}$ violet and gray wires must be installed as Class One .
2.) The $0-10 \mathrm{~V}$ control wires must not exceed $250 \mathrm{ft}(76 \mathrm{~m})$ in length and must be sized at no less than 20AWG.
3.) All models are field convertible to accept neutral wiring when required.

## Adaptive Daylight Harvesting (ADH)

With Sensor Switch's Adaptive Daylight Harvesting (ADH), automatic dimming has never been more reliable - even in a wall switch. It works by establishing two state change set-points; daylight and darkness. The light level in the space will then be automatically maintained by intelligently controlling the dim level of the electric light source. Set-points can be established using the "Set Now" option or programmed using desired light levels as measured in foot candles ( fc ).
