

PowerScan® PD7100 Industrial Corded Handheld Linear Imager Bar Code Reader

The PowerScan PD7100 linear imager is the perfect solution for users requiring a snappy, rugged and durable handheld scanner for the industrial environment. It combines features normally found in several models: high resolution, wide scanning angle and long range reading. Lightweight with outstanding snappiness makes 'intensive reading cycles' its preferred challenge.

Standard factory warranty is three years.
