

CP - COMMERCIAL CEILING FAN

Ideally suited for circulating air in Industrial and Commercial Applications. Canarm's "CP" Fans help save energy year round.

FEATURES

- Available with 36", 48" and 56" blade sweeps.
- Variable speed motor (all motors are impedance protected, PSC type variable speed with permanently lubricated ball bearing motors).
- When used with our MC series speed controls the speed range is infinite.
- Painted steel blades with curved ends deliver maximum airflow over wide areas.
- All models are reversible (exception: CP56 c/w cord & plug is downdraft only).
- Reversible motor provides both winter destratification and summer time cooling.

Downrods available as accessories in 8" or 36" sizes. See next page.

Black now available in 36" and 48".

HPWP - HIGH PERFORMANCE CEILING FANS

Engineered and designed for general applications where above average area coverage and cooling velocity are required.

FEATURES

- Reversible motor for both winter destratification and summer time cooling
- Fans are sealed and suitable for high moisture applications.
- All high performance fans are weather resistant.
- Straight blades and heavy duty motors for higher air movement and better cooling capacity.

36" downrod available as an accessory. See next page.
