

The MultiCard Concept

A Printing System for Terminals, Wires and Devices

Versatile and rapid creation of individual markers with the MultiCard system enables you to save time and costs when marking your electrical installation.

The MultiCard marking system consists of a coordinated combination of:

MultiCard Printers

Weidmüller developed the **MCP Plus Plotter** and **NEW PrintJet PRO** printers specially for the MultiCard concept. No compromises were made with regard to printing quality, printing speed or operating convenience. All of the advantages of modern-day printing technology have been optimised to suit the MultiCard system. Weidmüller's

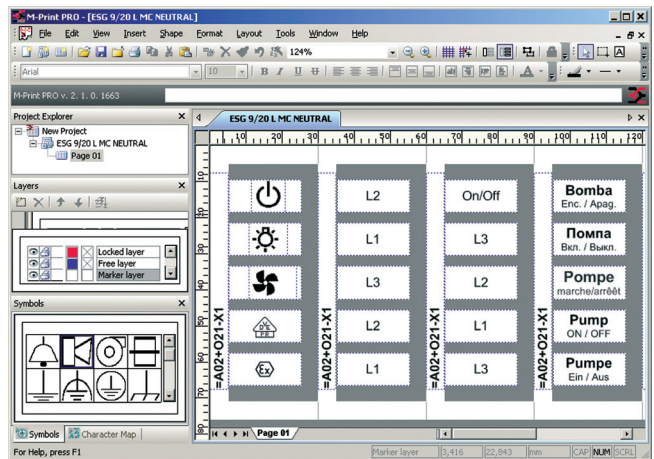

The benefits to you:

- Excellent printing quality.
- Fast printing
- Wipe-proof, scratch-resistant markers

MultiCard concept is a standardised, innovative printing system with more than 100 marker variations for terminal connectors, wires and cables as well as devices and installations from a wide range of manufacturers.

MultiCard Software

Using the software M-Print® PRO, you can plan individual printing of single MultiCard strips. Irrespective of the sequence of the characters, it is possible to prepare markings for whole blocks of terminals in advance. You only need to create the markers you currently need – and in the order the assembly dictates. This then prevents delays and confusion during installation procedures.

The benefits to you:

- Individual planning of labelling
- No need for stocks of preprinted labels
- Easy integration of graphics
- Data transfer from CAE systems
- Ideal for creating, printing and ordering markers & labels

Dekafix Terminal Markers - DEK/WS

- Material: Polyamide 66
- Flammability class acc. UL94: V2
- Temperature range: - 40°C ... +100°C

DEKAFIX For Weidmüller Terminals: SAK, W, Z and P Series

Type	Order No. (Blank)	Qty / Pack	Order No. (Custom Printed)	Mat Quantity
