

CAB[®]

CABLE RINGS & SADDLES

**Safe, Strong and Durable
Support for Pipeline Cables**

CAB Cable Rings and Saddles offer the highest quality support for electrical, control and all other cables installed along oil, gas, water and slurry pipelines. Cable Rings are manufactured from high tensile spring steel. They are designed to tightly fit on the messenger strand for an extremely strong and secure cable support system. The wide load bearing area of the Saddles provides extra support and protection of cables.

Proven Performance and Reliability in Highly Corrosive Environments

For maximum corrosion resistance, CAB Cable Rings are manufactured from galvanized steel or type 316 stainless steel. For added safety and protection, Cable Rings and Saddles can be totally insulated with a heavy 80 mil (2mm) coating of durable, high dielectric grade, PVC Plastisol. For over 35 years, engineering companies have specified CAB Products in the most corrosive environments around the world, from underground mines in Australia to oil pipelines on Alaska's North Slope.

Fast Installation, Easy Maintenance

CAB's unique Cable Ring design makes installation quick and easy. The design also allows flexibility of movement which is very important in areas with extreme temperatures or seismic activity. See CAB's Cable Ring and Saddle Brochure for full details.

**Tough,
Industrial-Grade
Hangers!**

CAB®

Heavy Duty Hangers and J-Hooks

Safe, strong support for electrical cables, hoses and pipes. CAB's standard J-Hooks are made from .180" x 1" (4.6 x 25.4mm) safety edge steel. For added safety and protection, they have a heavy 80 mil (2mm) coating of high-visibility orange plastisol. CAB's high dielectric grade plastisol has a 400 volt per mil dielectric breakdown strength and is flame retardant. It is tough, durable and extremely resistant to corrosion. Available in sizes up to 12" (305mm) diameter in a wide variety of configurations.

*Standard
J-Hook*
CAB 343
CAB 347
CAB 349
CAB 350

CAB Standard J-Hooks

Safe, strong supports for all types of sidewall applications. Made from plain or hot dipped galvanized steel. Keyhole has 1/2" (13mm) opening and 5/16" (8mm) slot. Available in sizes up to 12" (305mm) diameter.

CAB 343 1-1/2" (38mm) dia., 5-1/2" (140mm) long, 100/box, 47 lbs. (21.4kg)

CAB 347 3" (76mm) dia., 5-1/2" (140mm) long, 50/box, 29 lbs. (13.2kg)

CAB 349 4" (102mm) dia., 6-3/4" (171mm) long, 25/box, 18 lbs. (8.2kg)

CAB 350 5" (127mm) dia., 9-5/8" (244mm) long, 25/box, 23 lbs. (10.5kg)

CAB 348 Same as CAB 347 except made from **hot dipped galvanized steel.**

CAB 8037 Same as CAB 349 except made from **hot dipped galvanized steel.**

CAB Custom Manhole Hangers

These custom-made hangers are designed to solve problems created in tight spaces and for special requirement applications. Available in a wide range of materials and configurations.

CAB 6704

CAB Side Mount Hangers

Heavy duty supports designed to carry single or multiple cables in highly corrosive environments. Carriers are 3" (76mm) diameter. Can be custom made with any number or size carriers required.

CAB 6958 1 carrier, 8" (203mm) long, 25/box, 28 lb. (12.7kg)

CAB 6959 2 carrier, 14-1/2" (368mm) long, 10/box, 24 lb. (10.9 kg)

CAB 5133 3 carrier, 20" (508mm) long, 10/box, 32 lb. (14.5kg)

CAB 6681 4 carrier, 26" (660mm) long, 5/box, 22 lb. (10kg)

CAB 6704 4 carrier, 26" (660mm) long, custom heavy duty style

CAB Heavy-Duty S-Hooks

CAB S-Hooks effectively manage large bundles of pipe, hose, and cable. They are extremely strong and durable for use in highly corrosive environments, indoors or outdoors. Manufactured from strong 1/2" (13mm) diameter round stock with heavy plastisol coating over 100% of the surface. Contact CAB for S-Hook brochure and samples.

**Great for Meeting
OSHA Regulations;
Eliminates Trip Hazards!**

CAB 9449 3" (76mm) dia. bottom loop, 9" (229mm) long, 25/box, 18 lbs. (8.2kg)

CAB 7338 4" (102mm) dia. bottom loop, 11" (279mm) long, 10/box, 15 lbs. (6.8kg)

CAB 9450 5" (127mm) dia. bottom loop, 13" (330mm) long, 10/box, 17 lbs. (7.7kg)
