

# IPS05-1LZ

**UPC Code:** 07847757041

**Country of Origin:** China

## Brand Features

Leviton's IPV05/IPS05 Universal Vacancy and Occupancy Sensors combine state-of-the-art technology with new aesthetics to provide optimal management of lighting and motor loads and a choice of either Manual-ON (Vacancy Sensor) or Automatic-ON (Occupancy Sensor) switching. These energy-saving sensors are engineered to control current LED, CFL and incandescent loads and ensure that lights/motors will turn ON manually (vacancy) or auto-matically (occupancy) and turn OFF automatically when motion is no longer detected within the covered range. Designed to fit in a standard wallbox, both devices offer 180° Field of View and 900 sq. ft. of coverage.

<p>All models have screw terminals for easy installation and do not require a neutral wire for connection. The devices feature a time delay setting which allows users the option to delay the lights/motor load from switching off for 30 seconds, 5 minutes, 15 minutes or 30 minutes. For example, closet lighting would ideally be set to turn OFF in 30 seconds while a bathroom fan may be set to turn OFF 15 minutes after the space is vacated.</p>

<p>The IPV05/IPS05 is single pole, relay-based and designed to replace a single pole switch for loads such as exhaust fans. It is compatible with LED, CFL, Incandescent, Fluorescent and motor loads.</p>

## Item Description

Occupancy detector, 180 Degree PIR Wall Box Sensor, Single Pole, 5 Amp, White assembled on the device, ivory and light almond color change kit included.

## Technical Information

### Product Features

**Switch Type:** Single-Pole

**Adjustment:** Manual

**Pattern Degrees:** 180

**Coverage (Sq.Ft.):** 900 Sq. Ft.

**Time Adjustment:** 30s-30m

**Load Rating:** 600W Incandescent, 150W LED and CFL

**Voltage:** 120 Volt AC 60 Hz

**Neutral:** Not Required

**Standards and Certifications:** CUL/US

**Color:** White Ivory Light Almond

**Warranty:** 5-Year Limited

## Features and Benefits

- Universal Light Control - Switches Incandescent, CFL, LED and Fluorescent Ballasts using relay technology
- Automatic-ON/Automatic OFF operation for seamless energy management
- Low-Profile design eliminates an obtrusive "scanning device" look. Elegant styling compliments any interior and coordinates with Leviton's popular line of Decora® wiring devices
- 180 degree field-of-view provides approximately 900 square feet of coverage suitable for bathrooms, basements, garages, utility rooms and a variety of other residential areas
- Convenient push-button provides Manual OFF light switching at any time
- Segmented lens provides optimum sensitivity and performance. It is designed with an extensive "minor motion" area where even slight body movements will be detected
- Four optional manual adjustments for delayed-OFF time settings maximize energy savings: 30 seconds (for walking test), 10 minutes, 20 minutes and 30 minutes

- LED Indicator Light flashes when sensor detects motion to verify detection is active
- Unit can be used for 120V lighting. Compatible with both electronic and magnetic ballasts or 1/6 HP loads
- Fits in standard wallbox and replaces single-pole wall switch
- Neutral wire not requires for retrofit and new construction applications
- Five-Year Limited warranty.
