

### Lubricant & Corrosion Protectants

#### UNIVERSAL SUPERIOR LUBRICANT & CORROSION PROTECTANT FLUID FILM

Powerful rust and corrosive protection and superior lubricant for all tools and equipment. The most universal, unparalleled rust and corrosion control system. Environmentally friendlier, solvent-free, non-toxic. Always active, excellent "no drip" vehicle undercoating, non-evaporating, non-drying. Stays in place, forming a continuous, durable, protective barrier. Utilizes the unique molecular action of wool-wax along with other corrosion inhibiting ingredients. Not water-soluble, displaces moisture. Apply over damp or dry surfaces. Repels water, resists washout. Non-conductor of electricity. Temperature extremes from -46° C (-50° F) to 177° C (350° F). Penetrates through rust, stopping all metal deterioration on contact. Migrates to inaccessible areas by capillary action, impregnates pores of exposed metal. Stops corrosion caused by both natural and industrial sources. Eliminates the destructive corrosion effects of harsh minerals and chemicals such as salt, acid, calcium chloride, fertilizer, herbicide and pesticide. Fluid Film Aerosol (AS) and Bulk (NAS) meet and greatly exceed mil spec. C16173 (Army / Navy), mil spec. C18309 (Military Aviation) and Boeing spec. # MB0110-020. Fluid Film Bulk is an uncontrolled WHMIS material. Silicone and teflon free. CFIA approved.

#### RUST CONVERTER

Apply to rusted metal surface to stop rust in its tracks. Eliminates the need for sanding and scraping. Neutralizes rust and converts it to a tough primer in one easy step. Protective coating helps prevent future rust and may be painted if desired.

Description	Size	Item
Rust Converter	425 g	CRC74610

### Lubricant & Corrosion Inhibitors

#### ZINC MATE™

Coating of >92% pure zinc actively fights rust and corrosion. Use as a touch-up for damaged galvanized coatings. Dries quickly.

Description	Item
369 g Aerosol	CRC73054

#### RUST DESTROYER **NEW**

A patented primer engineered to be applied directly over rusted metal, rusted painted metal, bare metal, galvanized metal, aluminum, tin, and core tan steel. Converts active rust to a passive form on contact. Absorbing action of the primer film, envelopes converted rust crystals in the primer, eliminating exposure to oxygen and moisture preventing further rust.

Rust Destroyer	18.9 L	NLS73005

### Cutting & Tapping Lubricants

#### GUNK® SULFLO® LIGHT CUTTING OIL

Formulated for hand threading applications. High grade sulfured chlorinated base oil that helps cut clean, sharp threads on steel and brass pipes. Helps dissipate heat, prevents tool lock up, prevents heat build-up and helps retard corrosion on newly threaded parts. Superior lubricity and anti-weld properties.

Description	Item
946 mL Bottle	RARSUL2C

### Belt Dressings

#### DRIVE BELT TREATMENT

Stops belt slippage and squeal. Increases power delivery due to low-slip ingredients. Conditions belts, extending their life. Excellent for fan, alternator, power steering and air conditioner drive belts. Also ideal for drive belts on recreational vehicles, shop tools, washing machines, clothes dryers, and many other applications.

Description	Item
450 g Aerosol	KLF762

#### BELT DRESSING

Eliminates squeaks and prolongs belt life. Prevents slippage and glazing. Removes oil, grease and glaze. For use on all types of belts.

Description	Item
213 g Aerosol	CRC75350

#### BELT DRESSING & CONDITIONER

Extends belt life. Penetrates the cord fibers of "V" belts to restore pliability and flexibility. Prevents belt slippage due to heat, cold, dampness, dust and glazing. Eliminates squeaking and slipping. Applications: leather, rubber, canvas, fabric, flat, round or "V" belts, auto fan belts, farm machinery belting, all industrial belt drives.

Description	Item
369 g Aerosol	PML120DA

### Gun Wash

#### GUN WASH

An economical cleaner specially formulated for cleaning spray guns.
