UL/CSA LISTED SUPPORTS & ENCLOSURES

GARD-N-POST™

Arlington's **Gard-N-Posts™** are the attractive, safe and easy way to install light fixtures and devices outdoors!

We offer a variety of styles, from 9" to 73" tall that function as supports or enclosures – or both!

Made of non-metallic, heavy-duty plastic, our damage-resistant Gard-N-Post holds up against abuse from lawn maintenance equipment.

Most have built-in stabilizers that deliver rigid support and require no assembly. The angle-cut at the bottom allows for easy access to underground wires (Not applicable to GPD9 deck/post mount style or the GPLN15GR low profile support.)

Plus, the colorant runs throughout the post, so there's no chipping or loss of color.

For added convenience, **GP19**, **GP26** and **GP37**, our most popular sizes, come with a supplied separator so you can install power and low voltage outlets in the same post.

Some styles come with a metal grounding bushing in place, ready for the installation of an NPT fixture. And some have KOs that make them UL Listed enclosures.

**Whatever your need,
there's a Gard-N-Post to fit!**
