

TYPICAL WIRING DIAGRAM FOR QP, BQ & BL CIRCUIT BREAKERS EQUIPPED WITH A SHUNT TRIP DEVICE.

GENERAL NOTES:

1. The shunt trip device is provided with a series contact 'a'.
2. Diagram shown with the circuit breaker contacts and contact 'a' open. Closing the circuit breaker contact closes contact 'a'.
3. 'c' is the wire terminal on the Shunt Trip Pole.
4. Dotted lines indicate wire and equipment supplied by the customer.
