

TAKE IT TO THE

EDGE<sup>TM</sup>

# TRANSFORMING TROFFERS

Since their inception, traditional troffer fixtures have been designed in standard sizes that fit exclusively within the confines of t-bar ceiling layouts. Breaking traditions while removing the restrictions of above ceiling HVAC and t-bar layouts, we are excited to introduce EDGE!

Developed to challenge tradition, the EDGE allows for a diverse installation with high lumen output, without interfering with above ceiling mechanical, all while fitting perfectly into a t-bar ceiling with acoustic tile on top. No trimming needed!

#### Glare-Guard Technology

Reduces glare by 60% while keeping the same light distribution from a flat panel.

#### AVAILABLE SIZES

1'x1' | 1'x2' | 1'x4' | 2'x2' | 2'x4'  
| 30"x30" | 30"x60" | 20"x60"
