

Find the perfect LED alternative for fluorescent lamps while eliminating mercury content from your lighting system. Increased energy efficiency makes these lamps the ideal replacement for any application.

- ▶ Compatible with a variety of traditional electronic instant start, rapid start and program start ballasts.
- ▶ Quality glass encasing ensures protection against tube yellowing and brittleness.
- ▶ Plug and play solution for easy installation while allowing the fixture to keep its certification, without any additional wiring needed.
- ▶ Significantly reduces costly re-lamping charges.
- ▶ No start-up time required compared to traditional fluorescent lamps.

Quality glass encasing

- ▶ Ensures protection against tube yellowing.
- ▶ Prevents the tube from bending over time.
- ▶ Helps dissipate the heat.

Wider beam angle
A 330° beam angle delivers a broad and uniform light.

Fluorescent lamp design

With small metal end caps, this LED T8 tube looks like a traditional fluorescent lamp while maximizing the benefits of LED.

Fluorescent Replacements
