CWS1000

SLOPED ARCHITECTURAL CABINET

A POWERFUL SLOPED-TOP CABINET CONVECTOR

The CWS1000 is a great option for heating large areas requiring a higher than normal heat-loss recovery. It has a high power density of 1000 W per linear foot. Its sloped top adds dimension to an already dynamic design and makes it less likely it will be sat on, stepped on or used as a shelf. A powerful performer, the CWS1000 heats by natural convection, so you don't have to worry about noise.
