ELECTRICIAN'S KIT

4 OF THE MOST POPULAR STYLE MULTI-TOOL CUTTING BLADES

The 'Electricians Kit' has a great selection of blades that any electrical engineer needs and would use on a regular basis! Fine and Japanese tooth blades for cutting access holes and Bi-Metal blades for cutting out old wood and through old nails!

INCLUDES:

2x Bi-Metal Blades and 2x Wood/Plastic Blades

FEATURES:

- Cut quickly and neatly through wood and drywall
- Notch out joists and studs for cables
- Cut out cabinetry for device boxes
- Remove baseboards for heaters
- Creates minimal dust and disturbance
- Cuts easily in awkward access situations
