Quickly change between 1/4in. and 5/16in. hex sizes with Malco's unique, exclusive, dual-sided magnetic hex drivers. The reversible hex socket fits over a 1/4-inch magnet-tipped, ball locking hex shaft, and can be quickly reversed to change sizes. Eliminate troublesome buildup of metal shavings in the hex tip with the "Easy Clean Magnet". Just swipe with a glove or shop towel to clear any metal shavings. Tested torque of the reversible hex chuck driver design is equal to one-piece drivers.

THE STRUTTER

Installs 1/2" bolts into electrical strut channel for maximum strength. The Strutter Socket can be turned sideways, put into the strut, then slid over to the 1/2" bolt and tightened up. Before, you could only install the 3/8" bolt, but now, for heavy loads and maximum strength, use The Strutter Socket.
