

ROPEMATIC PRO

THE SMART WAY TO PULL

STOP HURTING YOUR HANDS AND WRISTS.

STOP BREAKING EXPENSIVE FISH TAPE.

PULL ROPE AND FISH TAPE THE SMART WAY WITH THE ROPEMATIC.

The Ropematic has a durable latch that grabs rope or fish tape when you are pulling down. As you pull back up, the latch loosens and easily slides up the rope or fish tape. You can then pull down again and the Ropematic will grab the rope or fish tape, pulling it down.

The PUCK

Ground Clamp Socket

A NEW SOLUTION FOR INSTALLING GROUND CLAMPS

Grounding clamps are used to ensure complete discharge of electricity while servicing or maintenance of electrical power systems in substations. There are many varieties of clamps manufactured by different companies, each with different fastening configurations such as an eye-bolt or a T-handle. Technicians use screwdrivers or channel lock pliers to tighten the grounding clamps. This sometimes produces a poor contact on the bus because of lack of accessibility. The Puck, when used with a standard 1/2 inch drive socket, provides the proper leverage in limited visibility or access areas, ensuring a proper contact on the bus.

BENEFITS:

- Allows ground clamps to be quickly, easily, and more securely installed in hard-to-get-to places versus the screwdrivers or channel-lock pliers that are currently used
- Lightweight and durable
- Allows the user to see where they need to line up
- One tool can be used with multiple manufacturers' equipment, multiple types (eyes and Ts) and multiple sizes
- Works with existing industry-standard equipment that will be in use for generations to come
- Provides proper leverage on short T-handles

An "indicating line" for use when working blind.

The Puck fits most brands' T-handles.

The Puck also fits most brands' eye-bolts.

SolderM8

SolderM8 is an Electricians best Mate

An amazing little gadget created by an Electrician for Electricians. It makes soldering LED strip lights so easy even your most inexperienced apprentice will conquer the skill in no time. You can now provide a high quality, durable finish on full lengths of LED strips in a fraction of the time – it will cut your costs and up your profits. For these reasons SolderM8 is now fast becoming an essential in every professional Electrician's toolbox.

What it Does

The magical underside sticks to flat or textured surfaces at every angle, even upside down. Insert the wires and it holds them in place firmly while you dab on solder and hey-presto the job is done and you move on to the next joint quickly, cleanly and easily.

Part #SM802

JET LEVEL

This convenient and strong pocket level comes with 4 precision vials of 0, 30, 45, and 90 degrees.

FEATURES:

- CNC milled from 6061 aluminum extra large "VD" groove, straddles up to 10" diameter
- Rare Earth magnets for extra holding
- Water and shock resistant

Part# 45404

Breaker Lok

Secure any circuit breaker in the ON Position with ease!

- Universal lock fits most breakers & standard toggle switches.
- Set screw and rigid leg prevents lock from slipping off breaker.
- Reusable & corrosion resistant.

Part# 75000 - 5 Pack

TrunkTie

What is Trunktie?

Trunkties are a simple solution designed to hold, hang, or tag things in position relative to an unpopulated port. Their most common use is to hold tags for identifying network ports, but our customers have found countless creative applications for their use.

How it works

Trunkties plug into an unused port, providing a flexible cable that secures into a multipurpose loop. That's all, it's that simple.

Part # 75065 (Pack of 25)

Part# 32050

POKE-E

TAME YOUR CABLES

Dreamed up by an electrician who was tired of his wired being buried in the walls. The **Poke-E** is a perforated strip that solves that issue by holding your cables in the exact place you intended them too. The **Poke-E** is installed in the rough in stage of construction in both residential and commercial applications.

Install in 3 easy steps: Nail, Cut and Poke

Features:

- Made in USA
- Holds up to a 1/2" fixed diameter cable
- Patent Pending

The **Poke-E** is intended for use with **Class 2 wiring only.**

LASER PLUMB BOB

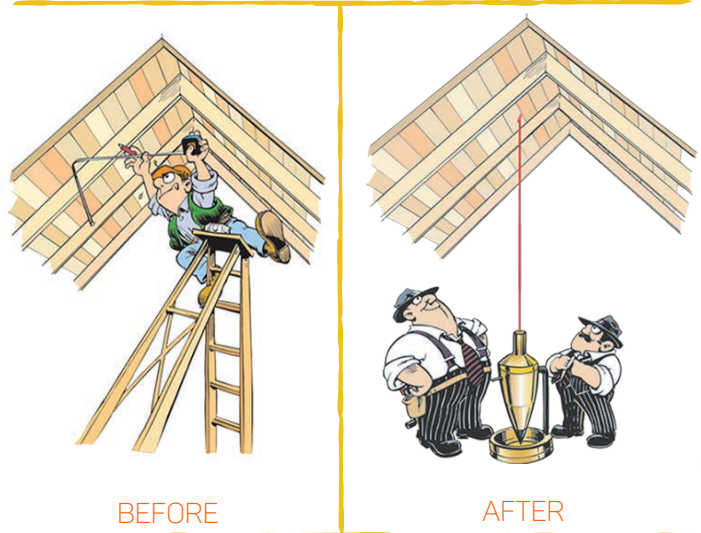

Looking for a better way to lay out complex ceiling and high bays? The Laser Plumb Bob, self leveling vertical laser from Rack-A-Tiers is the answer!

FEATURES:

- Solid brass construction
- Factory aligned laser module calibrated to precise 0.15 accuracy
- Magnetic damping for quick stabilization
- Self leveling and aligning (vertically)
- Durable plastic carry case
- Battery included

- PART #**
 88455 -Laser Plumb Bob
REPLACEMENT PARTS
 88-ARM - Laser Plumb Bob Arm With **MAGNET ATTACHED**
 88-BASE - Laser Plumb Bob Base
 88-BAT - Laser Plumb Bob Battery CR 123

MFG NOTE:

For all commercial, industrial, or residential installations. Great for laying out ceiling lights.
