# 75' HIGH FLEX FISH TAPE

---

Triple Strand Polyester Increases  
Durability and Strength

## 75' HIGH-FLEXIBILITY FISH TAPE

The Klein Tools 75' High Flex Polyester Fish Tape is the perfect wire pulling solution where flexibility meets strength. The polyester material provides a highly flexible and lightweight tape compared to steel while the triple strand design delivers increased durability and strength compared to fiberglass. The low friction case and optimized feed angle create a smooth payout and easy retraction. The bright orange strand woven into the triple strand improves visibility for easier locating of the tape.

**TRIPLE STRAND POLYESTER IS:**

**4X MORE FLEXIBLE THAN FIBERGLASS\***

**8X MORE FLEXIBLE THAN STEEL\***

\*Compared to Klein fiberglass and steel models.

**Bright orange strand** woven in provides increased visibility in low-light

For Professionals  
**SINCE 1857™**
