## SIEMENS

## Data sheet

## 6GK7243-1BX30-0XE0

product type designation

## CP 1243-1

Communications processor CP 1243-1 for connection of SIMATIC S7-1200 as additional Ethernet interface and for Connection to control centers via telecontrol protocols (DNP3, IEC 60870, TeleControl Basic), security (Firewall, VPN).

transfer rate		
transfer rate		
• at the 1st interface	10 100 Mbit/s	
interfaces		
number of interfaces / according to Industrial Ethernet	1	
number of electrical connections		
<ul> <li>at the 1st interface / according to Industrial Ethernet</li> </ul>	1	
<ul> <li>for power supply</li> </ul>	0	
type of electrical connection		
<ul> <li>at the 1st interface / according to Industrial Ethernet</li> </ul>	RJ45 port	
supply voltage, current consumption, power loss		
type of voltage / of the supply voltage	DC	
supply voltage / 1 / from backplane bus	5 V	
consumed current		
<ul> <li>from backplane bus / at DC / at 5 V / typical</li> </ul>	0.25 A	
power loss [W]	1.25 W	
ambient conditions		
ambient temperature		
<ul> <li>for vertical installation / during operation</li> </ul>	-20 +60 °C	
<ul> <li>for horizontally arranged busbars / during operation</li> </ul>	-20 +70 °C	
during storage	-40 +70 °C	
during transport	-40 +70 °C	
relative humidity		
<ul> <li>at 25 °C / without condensation / during operation / maximum</li> </ul>	95 %	
protection class IP	IP20	
design, dimensions and weights		
module format	Compact module S7-1200 single width	
width	30 mm	
height	110 mm	
depth	75 mm	
net weight	0.122 kg	
fastening method		
<ul> <li>35 mm top hat DIN rail mounting</li> </ul>	Yes	
wall mounting	Yes	
product features, product functions, product components / general		
number of units		
• per CPU / maximum	3	
performance data / open communication		

number of possible connections / for open communication	
number of possible connections / for open communication <ul> <li>by means of T blocks / maximum</li> </ul>	like CPU
performance data / S7 communication	
·	
number of possible connections / for S7 communication	
• maximum	like CPU
performance data / IT functions	
number of possible connections	
• as email client / maximum	1
performance data / telecontrol	
suitability for use	
node station	No
• substation	Yes
TIM control center	No
control center connection	For use with TeleControl Server Basic, WinCC and PCS7
<ul> <li>by means of a permanent connection</li> </ul>	supported
• note	Connection to SCADA system via Telecontrol Server Basic and Standard Telecontrol protocols
protocol / is supported	
• DNP3	Yes
• IEC 60870-5	Yes
product function / data buffering if connection is aborted	Yes; 64,000 events
number of data points per station / maximum	500
number of stations / for direct communication / with Telecontrol Server Basic	
in send direction / maximum	3
in receive direction / maximum	15
performance data / teleservice	15
diagnostics function / online diagnostics with SIMATIC STEP 7	Yes
product function	
program download with SIMATIC STEP 7	Yes
remote firmware update	Yes
product functions / management, configuration, engineering	
configuration software	STEP 7 Basic/Professional
configuration software <ul> <li>required</li> </ul>	STEP 7 Basic/Professional
configuration software <ul> <li>required</li> </ul> product functions / diagnostics	
configuration software <ul> <li>required</li> </ul> <li>product functions / diagnostics <ul> <li>product function / web-based diagnostics</li> </ul> </li>	STEP 7 Basic/Professional Yes
configuration software • required product functions / diagnostics product function / web-based diagnostics product functions / security	Yes
configuration software <ul> <li>required</li> </ul> <li>product functions / diagnostics <ul> <li>product function / web-based diagnostics</li> </ul> </li> <li>product functions / security <ul> <li>firewall version</li> </ul> </li>	Yes stateful inspection
configuration software <ul> <li>required</li> </ul> <li>product functions / diagnostics <ul> <li>product function / web-based diagnostics</li> </ul> </li> <li>product functions / security <ul> <li>firewall version</li> <li>product function / with VPN connection</li> </ul> </li>	Yes stateful inspection IPsec, SINEMA RC
configuration software  • required  product functions / diagnostics  product function / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168
configuration software         • required         product functions / diagnostics         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates
configuration software         • required         product functions / diagnostics         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2
configuration software     • required  product functions / diagnostics  product functions / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection  type of authentication procedure / with VPN connection  type of hashing algorithms / with VPN connection  number of possible connections / with VPN connection	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates
configuration software     • required  product functions / diagnostics  product function / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection  type of authentication procedure / with VPN connection  type of hashing algorithms / with VPN connection  number of possible connections / with VPN connection  product function	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8
configuration software         • required  product functions / diagnostics  product function / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection  type of authentication procedure / with VPN connection  type of hashing algorithms / with VPN connection  number of possible connections / with VPN connection  product function  • password protection for Web applications	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No
configuration software         • required         product functions / diagnostics         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         e password protection for Web applications         • password protection for teleservice access	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8
configuration software         • required  product functions / diagnostics  product function / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection  type of authentication procedure / with VPN connection  type of hashing algorithms / with VPN connection  number of possible connections / with VPN connection  product function  • password protection for Web applications	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes
configuration software         • required         product functions / diagnostics         product functions / security         firewall version         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection for Web applications         • password protection for teleservice access         • encrypted data transmission         • ACL - IP-based	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No
configuration software     • required  product functions / diagnostics  product functions / web-based diagnostics  product functions / security  firewall version  product function / with VPN connection  type of encryption algorithms / with VPN connection  type of authentication procedure / with VPN connection  type of hashing algorithms / with VPN connection  number of possible connections / with VPN connection  product function  e password protection for Web applications  e password protection for teleservice access  encrypted data transmission  ACL - IP-based  ACL - IP-based for PLC/routing	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No
configuration software         • required         product functions / diagnostics         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection for Web applications         • password protection for teleservice access         • encrypted data transmission         • ACL - IP-based         • ACL - IP-based for PLC/routing         • switch-off of non-required services	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No
configuration software         • required         product functions / diagnostics         product function / web-based diagnostics         product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection for Web applications         • password protection for teleservice access         • encrypted data transmission         • ACL - IP-based         • ACL - IP-based for PLC/routing         • switch-off of non-required services         • blocking of communication via physical ports	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No Yes No Yes
configuration software • required product functions / diagnostics product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access	Yes stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No Yes No No Yes No

security information	
security information	Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4)
