Adapt to your environment. Easily.

The Versaflo M-Series is simple to customize to fit the challenges you encounter. From metalworking to glass manufacturing, welding and more, you can help ensure protection, comfort and clear communication in a wide variety of environments.

Communicate with confidence.

The M-300 is now compatible with a variety of 3M™ PELTOR™ Protective Communication Headsets along with a newly designed speech microphone to help maintain productivity, coordination and clear communication without having to raise the visor or sacrifice respiratory protection.

Easy fit.

Microphone has simple snap-fit connection and 3 adjustment points to allow fit to a wide range of head sizes.

Hands-Free Communication.

Voice Operated Transmission (VOX) allows for hands-free communication in noisy environments.

- ▶ Versaflo M-300
- ▶ PELTOR WS LiteCom Pro III

Hearing Protection with Environmental Listening.

Assists workers to hear environmental sounds in low noise and helps provide protection when it's loud.

Integrated Versatility.

Integrated protection from a range of respiratory, head, eye, face and hearing hazards.

Add value. Choose to customize.

Make M-series your own with versatile accessories that can help adapt the headgear to your particular environment.

Visors.

Upgrade to a scratch and chemical resistant visor M-927, extend visor life with peel offs, or add a shaded over visor combining M-961 and M-967.

▶ M-961 & M-967

Breathing Tubes.

Deliver the powered airflow you need for your application through breathing tubes varying from light to heavy duty.

Breathing Tube	Length	Protection
BT-20S	Short - for use with backpacks	Light Duty
BT-20L	Long	Light Duty
BT-30	Adjustable	Medium Duty
BT-40	Long	Heavy Duty

Additional Integrated Versatility.

Explore further options that can help offer protection from flames and sparks, splashes, noise and more, to help handle the environments you encounter.

Handle the heat.

You're golden.

Gold over-visor helps protect against UV/IR and sparks or splashes.

Extended use.

Optional Breathing Tube Radiant Heat Cover BT-927N helps extend the life of your breathing tube.

Weld and grind without the grind.

Versatile protection.

APF up to 1,000.

Auto-darkening filter.

Helps protect from welding arc and impact. Compatible with 9100XXi ADF with Natural Color Technology.

Stay in touch.

Visors can be lifted in non-hazardous areas to help facilitate communications.
